

**PHOTOSTABILITY AND DEGRADATION OF
SOME COLORANTS OF INDUSTRIAL
POTENTIAL**

THESIS SUBMITTED

BY

AHMED OSMAN YOUSSEF ABAAS

M.Sc. (Chemistry) 1995

TO

CHEMISTRY DEPARTMENT
FACULTY OF SCIENCE
AIN SHAMS UNIVERSITY

FOR

**THE DEGREE OF
DOCTOR OF PHILOSOPHY
IN CHEMISTRY**

THESIS ADVISORS

Prof. Dr. M. S. A. Abdel-Mottaleb

Professor of Inorganic Chemistry and

Director of Photoenergy Center

Dr. M. S. Antonious

Professor of

Physical Chemistry

Dr. M. N. Ramsis

Assistant Professor of

Analytical and Inorganic Chemistry

Chemistry Department, Faculty of Science, Ain Shams University

Prof. A. F. M. Fahmy

Chairman of the Chemistry Department

ACKNOWLEDGMENT

First and foremost, I would like to thank our **God** for giving me the opportunity to accomplish this work.

I would like to express my deepest thanks, gratitude and appreciation to **Professor Dr. Abdel-Mottaleb M. S. A.**, Chemistry Department, Faculty of Science, Ain Shams University, Abbassia, Cairo, Egypt for suggesting the point of research, providing the laboratory facilities, supervision, continuous and kind guidance and valuable discussions throughout this work.

I am also indebted to **Dr. Antonious M. S.** Professor of physical chemistry, Faculty of Science, Ain Shams University, for his help and interest.

Special thanks to **Dr. Ramsis M. N.** Assistant professor of inorganic and analytical chemistry, Faculty of Science, Ain Shams University, for her kind assistance, encouragement and guidance.

Also, my best thanks to my colleagues in the Department of Chemistry, Faculty of Science, Ain Shams University.

Finally, I greatly appreciate the Photoenergy Center, Ain Shams University for financial support of this work.

Ahmed Osman Youssef

CONTENTS

	Page
Aim of work-----	i
List of Figures-----	v
List of Tables-----	xxii

CHAPTER 1

Introduction and literature review

1.1-Environmental water pollution-----	1
1.2-Classification of water pollutants-----	11
1.3-Sources of contamination of water pollution-----	19
1.4-Advanced waste treatment methods-----	26
1.5-Homogeneous photodegradation processes-----	35
1.6-Heterogeneous photodegradation processes-----	51
1.6.1-General remarks-----	56
1.6.2- Kinetics of heterogeneously photocatalyzed conversions-----	81
1.6.3-Other parameters influencing the rate of degradation-----	85
1.6.4-What make semiconductor colloids unique photocatalyst-----	97
1.6.5-Solar and artificial UV light sources-----	104

CHAPTER 2

Photolytic and thermal effects on decomposition of O, N donating chelating agent and its complexes using W-lamp

2.1-Introduction-----	117
2.2-Experimental section-----	125
2.3-Results and discussion-----	126
2.4-Conclusion-----	142

CHAPTER 3

Set up of reactor and study of photocatalyzed degradation of Methylene blue using Xenon lamp

3.1-Introduction -----	143
3.2-Experimental section-----	147
3.3-Results and discussion-----	149
3.4-Conclusion-----	163

CHAPTER 4

Photodegradation of toxic water soluble organometallic dye reagent

4.1-Introduction-----	165
4.2-Experimental section-----	171
4.3-Results and discussion-----	174
4.4-Conclusion-----	199
