LAPAROSCOPIC MANAGEMENT OF
IMPALPABLE TESTIS

*This thesis is
Submitted in partial fulfillment of the requirement for
the M. Sc. Degree in
General Surgery*

By

Adel Miligi Abd -El - Hamid
(M.B.B Ch)

Supervised by

Prof. Dr. Moumin Abu Shellou
Professor of General Surgery. Ain Shams
university

Dr. Emad fareed
Lecturer of General Surgery. Ain Shams
university

**Faculty of Medicine
Ain Shams University
1997**

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

{ وَاتَّقُوا اللَّهَ وَيَعْلَمَكُمُ اللَّهُ
وَاللَّهُ بِكُلِّ شَيْءٍ عَلِيمٌ }

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

القرآن الكريم . البقرة (٢٨٢)

CONTENTS

	Page
□ Acknowledgement.	
□ List of tables.	
□ List of figures.	
□ Introduction and aim of the work.....	(1)
□ Review of literature	
- Definitions and incidence.....	(3)
- Anatomy of the testis, epididymis and vas deferens.....	(5)
- Physiology of the testis.....	(12)
- Aetiology of the undescended testis.....	(15)
- Histopathology of the undescended testis.....	(17)
- Hazards of the undescended testis	(19)
- Clinical picture of the impalpable undescended testis.....	(21)
- Investigations of the impalpable testis.....	(24)
- Treatment of the impalpable testis.....	(33)
- Therapeutic applications of laparoscopy to the impalpable undescended testis.....	(51)
□ Patients and methods.....	(75)
□ Results.....	(81)
□ Discussion	(86)
□ Summary and conclusion.....	(94)
□ References	(96)
□ Arabic summary.....	(110)

Acknowledgement

*First and foremost, thanks are to **Allah**, the most beneficent and merciful.*

*I would like to express my sincere gratitude and respect to **Prof. Dr. Moumin Abu Shellou**, Prof. Of surgery, Ain Shams University, for his great concern, co-operation and his kind patience through preparation of this study. I also like to thank him for the valuable and precious time he spent directing me during supervision of this work. Really without him this work would have never been accomplished.*

*I have to express my great thanks and appreciation to **Dr. Emad Fareed** Lecturer of surgery, Ain-Shams University, for his valuable advice, help and kind support.*

Lastly, but certainly not least, those who most deserve my thanks are my dear wife and my kids who suffered a lot during preparation of this study.

List of tables

<i>Table No.1:</i> Review of previously reported series of laparoscopic findings in cases with impalpable testes.....	32
<i>Table No.2:</i> The age distribution of the cases	81
<i>Table No.3:</i> The distribution of side affected	81
<i>Table No. 4:</i> Different sites of the testes	82
<i>Table No. 5:</i> Different procedures in the testes	83
<i>Table No.6:</i> Shows age family h., presentation, general and local examination of the testes.....	84
<i>Table No.7:</i> Shows ultrasound exam. and lap. findings of the testes.....	85

List of figures

<i>Figure No.1:</i> Normal lap. anatomy of the right testicle	30
<i>Figure No.2:</i> Lap. appearance of the Rt. groin with low intra-abdominal testis.....	30
<i>Figure No.3:</i> Traditional orchiopexy	39-41
<i>Figure No.4:</i> Lap. approach for a laparoscopy-assisted orchiopexy.....	62
<i>Figure No.5:</i> Printess Manoeuvre.....	66
<i>Figure No.6:</i> Final positions for trocar placement in single stage orchiopexy	67
<i>Figure No.7:</i> Lap. approach for a second-stage Fowler-Stephens orchiopexy.....	71

INTRODUCTION
