ACKNOWLEDGEMENT

It is difficult to translate my feelings towards Prof. Dr. Erian George Kamel for his sincere initiating power, stimulating suggestions, constant encouragement and kind help and advice.

I wish to express my profound gratitude and sincere appreciation to Prof. Dr. Hussein Mohamed Shoukry El-Nahal for his instructing guidance and valuable suggestions and supervision.

I would like to thank Dr. Nawal Hassaballa Haroun for her kind help and her valuable advices.

Also, I would like to express my deeply thanks to Prof. Dr. Fouad Yousif, Scientific Team Leader of SBSP (Schistosome Biological Supply Program) for his kindly help to provide me the biological materials for my experiments.

In fact, I owe much to the staff of the Parasitology Department in Theodor Bilharz Research Institute.

LIST OF TABLES

	Page
Table 1: The components of a high protein and low protein diet used and the percentage of each component.....	30
Table 2: The effect of praziquantel on worm distribution in albino mice infected with 40 <u>S. mansoni</u> cercariae.....	41
Table 3: The effect of praziquantel on worm distribution in albino mice (protein-deficient nourishment) infected with 40 <u>S. mansoni</u> cercariae.....	42
Table 4: The effect of praziquantel on oogram in small intestine of infected albino mice with 40 <u>S. mansoni</u> cercariae.....	55
Table 5: The effect of praziquantel on oogram in small intestine of infected albino mice (protein-deficient nourishment) with 40 <u>S. mansoni</u> cercariae.....	56

Table 6: The effect of praziquantel on the number of ova/gm tissue of albino mice infected with 40 S. mansoni cercariae.....59

Table 7: The effect of praziquantel on the number of ova/gm tissue of albino mice infected with 40 S. mansoni cercariae.....60
