Dr. SOHEIR MEKHEMER

And

TO MY PARENTS

Acknowledgement

I am deeply grateful to Dr. Ahmed samy Khalifa, professor of paediatrics, Ain Shams University, for directing me throughout the whole work and for helping me to over come all the difficulties that faced me in my time and effort. Any attempt to define my in debtness to him well be far from complete.

I wish to express my sincere and cordial gratitude to my dear prof. Dr. Soheir Mekhemar, professor of public health nursing and the dean of high institute of nursing, Ain Shams University, with unfailing kindness, she has put freely at my disposal her immense experience and knowledge and for her support & advice throughout my work. She spent a lot of her valuable time building up this work & without this help of her, this thesis could have not been produced.

I should thank Dr. Nawal Soliman, lecturer of public health nursing. Ain Shams University for her helps and guidance.

I wish to show my gratitude to all those who sincerely helped me in this work.

Fininally. Thanks also to my parents for their encouragement & sincere help throughout this work.
