

**Physical Dosimetry for Some Sensitive Organs
in Patients Treated by
Ionizing Radiation**

THIS IS
SUBMITTED IN PARTIAL FULFILMENT OF THE REQUIREMENTS

FOR
THE DEGREE OF
MASTER OF SCIENCE
IN
PHYSICS

TO
PHYSICS DEPARTMENT
FACULTY OF SCIENCE
AIN SHAMS UNIVERSITY

BY
AMIN EL-SAYED AHMED AMIN

DEMONSTRATOR OF RADIATION PHYSICS
FACULTY OF MEDICINE
AIN SHAMS UNIVERSITY

**1984
A.R.E.**

IN THE NAME OF THE MERCIFUL GOD

To my parents

S U P E R V I S O R S

1. Prof. Dr. ZEINAB MELIGY MOHAMED, Prof. of Nuclear Physics, Physics Dept., Faculty of Science, Ain Shams University.
2. Prof. Dr. ABDEL HADY ABOU EL-HAJ, Head of Radiotherapy and Nuclear Medicine Dept., Faculty of Medicine, Ain Shams University.
3. Dr. MOHAMED FARID NOOMAN, Chief of Radiophysics Unit, Faculty of Medicine, Alexandria University.

ACKNOWLEDGMENT

I am sincerely grateful to Prof. Dr. A.ABOU EL HAJ, head of Radiotherapy and Nuclear Medicine Dept., Faculty of Medicine, Ain Shams University, for his valuable suggestions, and fruitful discussions during this work.

I wish to express my appreciation and sincere thanks to Prof. DR. ZEINAB MELIGY, Prof. of Nuclear Physics, Physics Dept., Faculty of Science, Ain Shams University, for her kind supervision and encouragement throughout this work.

I am grateful also to Dr. M.F.NOOMAN, Chief of Radio-physics Unit, Faculty of Medicine, Alexandria University, who suggested the problem and for his continuous help, support and discussions during this work.

I am sincerely wish to thank Dr. N.EL-SHERBINI, Lecturer of Medical Physics, Kasr El Einy Centre of Radiation Oncology and Nuclear Medicine, Faculty of Medicine, Cairo University, for much help and interest with the experimental work.

7

I would like also to thank Dr. LILA F. MATTA, Assistant Prof. of Radiotherapy and Dr. ANOIR M. RADY, Radiotherapist, Radiotherapy and Nuclear Medicine Dept., Faculty of Medicine, Ain Shams University, who have helped me in carrying out part of this work. I would like also to thank the Ophthalmology staff, for allowing me to carry out some ophthalmological dosimetry.

C O N T E N T S
