ACKNOWLEDGEMENT

First of all thanks to God to whom I relate any success in achieving any work in my life.

I wish to express my deepest gratitude to Prof. Dr. IBRAHIM EL-MITWALEY SAMAHA, Professor of Obstetrics and Gynaecology, Ain Shams University, for his great help and supervision.

Also, my great appreciation to Dr. KHALED HASSAN SWEEDAN, Lecturer of Obstetrics and Gynaecology, Ain Shams University, for his sincere encouragement, valuable comments and advice throughout the work.

Also, I am grateful to Dr. AISHA MAMDOUH HAFEZ, Lecturer of microbiology and immunology, Ain Shams University, for her great help throughout this work.

Last but not the least, I would like to express my deepest gratitude and love to my family and my fiancée.

LIST OF TABLES

Number	Table	Page
• Table (1)	The initiation of parturition and the “onset of labour”	10
• Table (2)	Approximate neonatal survival of preterm infants born in a tertiary care center	38
• Table (3)	Scoring system to identify patients at high risk of preterm labour	52
• Table (4)	Warning symptoms of preterm labour	53
• Table (5)	Use of terbutaline in the treatment of preterm labour	73
• Table (6)	Use of retodrine in treatment of preterm labour	74
• Table (7)	Magnesium sulphate for the treatment of patients in established preterm labour	78
• Table (8)	Genital micro-organisms found in association with preterm labour and chorioamnionitis	102
• Table (9)	Summary of evidence linking infection and preterm labour	104
• Table (10)	Alternative names of IL-6	107
• Table (11)	Producers of IL-6	108
• Table (12)	IL-6 and diseases	115
• Table (13)	Comparison between the 4 subgroups/age	142
• Table (14)	Comparison between the 4 subgroups/GA	144
• Table (15)	Comparison between the 4 subgroups/Parity	144
• Table (16)	Comparison between the 4 subgroups/Birth weight	147

• Table (17)	Comparison between the 4 subgroups/GA at delivery	147
• Table (18)	Comparison between the 4 subgroups/IL-6	150
• Table (19)	Comparison between groups 2+3\1+4 as regards IL-6	150
• Table (20)	Comparison between groups 1+2\3+4 as regards IL-6	153
• Table (21)	Difference between groups 1\2 as regards IL-6	153
• Table (22)	Difference between group 3\4 as regards IL-6	156
• Table (23)	Difference between group 1\4 as regards IL-6	156
• Table (24)	Difference between group 2\3 as regards IL-6	159
• Table (25)	Difference between groups 2+3\1+4 as regards IL-6	159
• Table (26)	Difference between groups 1+2\3+4 as regards IL-6	162
• Table (27)	IL-6 for the group of patients who delivered	164
• Table (28)	IL-6 for the group of patients who did not deliver (i.e. control group)	165
• Table (29)	Number of patients versus control as regard (+ve) or (-ve) IL-6	166

LIST OF FIGURES

<i>Number</i>	<i>Figure</i>	<i>Page</i>
• Figure 1	The uterine phases of Parturition	8
• Figure 2	Descriptive study of all subgroups / age	143
• Figure 3	Descriptive study of all subgroups / GA	145
• Figure 4	Descriptive study of all subgroups / Parity	146
• Figure 5	Descriptive study of all subgroups / Birth weight	148
• Figure 6	Descriptive study of all subgroups / GA at delivery	149
• Figure 7	Descriptive study of all subgroups / IL-6	151
• Figure 8	Comparison between 2 subgroups 2+3 \ 1+4 according to IL-6	152
• Figure 9	Comparison between 2 subgroups 1+2 \ 3+4 according to IL-6	154
• Figure 10	Difference between group 1 - 2 / IL-6	155
• Figure 11	Difference between group 3 - 4 / IL-6	157
• Figure 12	Difference between group 1- 4 / IL-6	158
• Figure 13	Difference between group 2 - 3 / IL-6	160
• Figure 14	Difference between groups 2+3 - 1+4 / IL-6	161
• Figure 15	Difference between groups 1+2 - 3+4 / IL-6	163
