سورة البقرة آية رقم ٣٢

ACKNOWLEDGEMENT

I would like to extend, cardial appreciation and infinite gratitude to **Professor El-Sayed El-Sayed El-Mahgoub**, Professor of Obstetrics and Gynaecology, Ain Shams Faculty of Medicine, for his fatherly guidance and advice. He spared no effort to help me along the entire course of the work.

My words fail me to express my deepest appreciation to **Professor Ahmed Abou-Gabal**, Professor of Obstetrics and Gynaecology, Ain Shams Faculty of Medicine, he has been most helpful to me throughout the whole work, his endurance has pushed me ahead, and has endowed me with hope and perseverance.

Iam deeply grateful to **Professor Ali Khalifa**, Professor of Biochemistry and Head of Oncology Diagnostic Unit, Biochemistry Department, Ain Shams University, his continual watchfullness, his valuable and most creative and instructive ideas and thoughts have motivated my energy.

Iam so grateful to **Dr. Magdy Kamal**, Assistant Professor of Obstetrics and Gynaecology, Ain Shams Faculty of Medicine. He gave time unselfishly and shared in the objective and critical evaluation of the test. I extend my special thanks to him for sharing ideas and making recommendations to improve the work.

I am also very grateful to **Dr. Magda Hassan**, Assistant Professor of Clinical Pathology, Ain Shams Faculty of Medicine, for her support and valuable assistance in accomplishing this work.

My special thanks to **Dr. Adel Sabaque**, Assistant Professor of Obstetrics and Gynaecology, Ain Shams Faculty of Medicine, for his scientific guidance and valuable assistance.

Lastly, but certainly not least **Dr. Maha Emam**, Lecturer of Biochemistry, Ain Shams Faculty of Medicine, her cooperation in accomplishing the laboratory work has been invaluable, she carefully read and reviewed every part of the manuscript, making many excellent suggestions and corrections.

Finally, my very special thanks for my wife and family for their moral support.

CONTENTS

<i>Introduction and aim of the work</i>	1
<i>Review of literature</i>	
<i>Different methods for dating the endometrium</i>	3
-Endometrial biopsy.....	3
-Other clinical diagnostic tests.....	36
<i>Corpus luteum formation</i>	46
<i>Luteal phase deficiency (LPD)</i>	51
-Pathophysiology of LPD.....	64
-LPD validation problems.....	76
-Current clinical consensus of LPD.....	79
-Recommendations for treatment.....	80
<i>Principles of flow cytometry (FCM)</i>	90
-The normal cell cycle.....	94
-Interpretation of FCM data.....	95
-Common uses of FCM in gynaecology.....	101
<i>Materials and methods</i>	107
<i>Results</i>	117
<i>Discussion</i>	151
<i>Summary</i>	161
<i>References</i>	165
<i>Arabic summary</i>	

LIST OF ABBREVIATIONS

- P : Progesterone.
LH : Luteinizing hormone.
HCG : Human chorionic gonadotropins.
CL : Corpus luteum.
E2 : Estradiol.
LPD : Luteal phase defect.
FSH : Follicle stimulating hormone.
EGF : Epidermal growth factor.
E2R : Estradiol receptors.
PR : Progesterone receptors.
NOR : Nucleolar organizer regions.
IGF1 : Insulin like growth factor 1.
POD : Post ovulatory day.
NCS : Nucleolar channel system.
PG : Prostaglandin.
17- β (OH)DH: 17-beta hydroxy dehydrogenase.
