بسم الله الرحمن الرحيم

﴿قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا بِمَا عَلَّمْتَنَا إِنَّكَ
الْعَلِيمُ الْحَكِيمُ﴾

صدق الله العظيم

سورة البقرة (٣٢)

ACKNOWLEDGEMENT

I wish to express my deep gratitude and respectful thanks to *Prof. Dr. Ahmed Galal El-Laithy*, Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University, for his help, valuable remarks, constructive criticism and meticulous review of this work. His precious guidance, which was given, is beyond acknowledgement.

I am deeply grateful to *Dr. Bahaa Abdel-Kader Fateen*, Assistant Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University, for his support, unforgettable assistance, encouragement and help.

CONTENTS

	Page
- Introduction	1
- Aim of the work	4
- Review of literature	
• Anatomy of the female breast	5
• Mastology among gynecologists worldwide	23
• The role of obstetrician/gynecologist in early detection, diagnosis and treatment of breast cancer	25
• Epidemiology & risk factors of breast cancer	28
• Screening for breast cancer	61
• Daignosis of breast cancer	75
* History	75
* Clinical examination	77
* Imaging modalities of the breast	90
* Assessment of metastatic disease	105
* Cytology and histopathology	110
• Staging	129
• Pathology of breast cancer	134
• Prevention	148
• Treatment	150
- Summary and conclusion	195
- Recommendations	199
- References	201
- Arabic Summary .	

LIST OF FIGURES

No	Figure	Page
1	The milk line or ridge	6
2	Anatomy of the female breast	7
3	Anatomy of the female breast	11
4	The ductal and lobular system of the breast	15
5	The female breast at different period of life	17
6	Pubertal development of the breast - Tanner staging ...	19
7	Cancer site incidence in U.S. women	29
8	Cancer deaths in U.S. women	30
9	Mortality rate of breast, lung, uterus and ovarian cancer	30
10	Mammographic and clinical detection of cancer breast	62
11	Breast self-examination	68
12	Breast self-examination	69
13	Clinical examination of the breast	79
14	Patient breast observation by physician	80
15	Breast palpation by physician	80
16	Palpation of the breast in a dependant position	81
17	Axillary palpation by physician	81
18	Palpation of breasts	84
19	Clinical examination of the breast -Assessment of regional lymph node	85
20	Drawing showing examples of breasts for recording clinical breast evaluation findings	87

LIST OF FIGURES/CONT.

No	Figure	Page
21	Evaluation of breast mass in premenopausal women ...	88
22	Evaluation of breast mass in postmenopausal women ..	89
23	Mammography being performed	91
24	Mammogram showing a large spiculated mass	96
25	Mammogram of a breast cancer with nodal metastases	97
26	Mammogram showing extensive malignant micro-calcification	99
27	Sonographic evaluation of a palpable breast nodule	102
28	Sonography of the breast showing a solid nodule	102
29	Thermography of the breast	104
30	Cyst aspiration	111
31	Fine needle aspiration	114
32	The technique of FNAC	114
33	FNAC	115
34	Core biopsy	119
35	Acceptable skin incisions for breast biopsy	121
36	Open biopsy	122
37	Open biopsy	123
38	Needle localization of a breast lesion	127
39	Specimen with needle-localizing wire	127
40	Localization markers for nonpalpable lesions	127
41	Role of stereotactis FNAC in assessment of impalp-able mammographically detected suspicious lesion	128

LIST OF FIGURES/CONT.

No	Figure	Page
42	Lymphatic drainage of the breast illustrating levels of axillary nodes	146
43	Modified radical mastectomy	154
44	Total mastectomy	156
45	Radiograph of the surgical specimen	160
46	Wide local excision through an incision in Langer's lines	162
