Ecological Studies on the Whitefly

BEMISIA TABACI (Genn.)

(Homoptera, Aleyrodidae)

THESIS

Submitted to

Institute of Environmental Studies and

Research, Ain Shams University,

Cairo for the Ph. D. Degree

By

KHAIRAT AHMED KHAIRY EL-RAFI

Assistant Researcher, Plant Protection

Research Institute, Agriculture Research Center

SUPERVISED

By

Prof. Dr. M. F. El-Shaarawi

Professor of Economic Entomology

Ex-Vice President of Ain Shams University

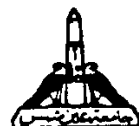

Prof. Dr. Fawzy Haydar, Plant Protection

Research Institute, Agriculture Research Center,

Cairo

1995

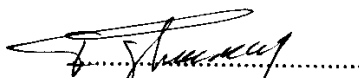

APPROVAL SHEET

Name of student : KHAIRAT AHMED KHAIRY EL-RAFL

Degree : Ph.D. (Economic Entomology)

Title of Thesis : Ecological studies on the Whitefly Bemisia tabaci
(Genn)

This thesis for the Ph.D. degree has been approved by :

..... H. I. Abdel-Meghal
..... E. Mohamed.....

Committee in charge

Date / / 1995

ACKNOWLEDGMENT

This work has been carried out under the supervision of Prof. Dr. Mohamed Fawzy El-Sharaawy, Professor of Economic Entomology, Faculty of Agriculture, Ain-Shams University, and Consultant of Ain-Shams University, to whom the author wishes to express her indebtedness for suggesting the problem, valuable guidance and constructive criticism of the present work.

Sincere thanks and appreciation are due to Prof. Dr. Fawzy Haydar, Plant Protection Research Institute, for his help, valuable advice, keen supervision, encouragement and all facilities offered during the course of this study.

The author would also like to express her gratitude to Prof. Dr. Mohammed Abdel-Megeed, Professor of Pesticides, Plant Protection Department, Faculty of Agriculture, Ain-Shams University for reading the manuscript.

I INTRODUCTION	1
II REVIEW OF LITERATURE	3
A- Ecological Studies of the Tomato Whitefly <u>Bemisia tabaci</u> (Gennadius)	3
B- Biology of <u>B. tabaci</u> (Genn.)	8
C- Control of <u>B. tabaci</u> (Genn.)	9
III MATERIALS AND METHODS	16
A- Fluctuation in Population of <u>Bemisia tabaci</u> (Genn.) on Different Hosts under Field Conditions	16
B- Effect of Tomato Planting Dates in Nili Plantation on <u>B. tabaci</u> (Genn.) Infestations and Its Relation with Tomato Leaf Curl Virus and Tomato Yield	17
C- Effect of Irrigation on the Activity of <u>B. tabaci</u> (Genn.)	17
a- Effect of Irrigation Systems	
b- Effect of the Number of Irrigations (Surface Irrigation) on the Activity of <u>B. tabaci</u> in Nili Tomato Plantation	

D- The Economic Damage Threshold and Economic Injury	
Level of <u>B. tabaci</u> (Genn.) on Tomato Plants	19
a- The Relation between <u>B. tabaci</u> Infestation and Tomato Yield	
b- Relation between Adults and Immature Stages	
E- Effect of Non-traditional Insecticides in Controlling the Whitefly <u>B. tabaci</u> (Genn.)	21

IV RESULTS AND DISCUSSION

A- Fluctuation in Population of <u>Bemisia tabaci</u> (Genn.) on Different Hosts under Field Conditions	23
B- Effect of Tomato Planting Dates in Nili Plantation on <u>B. tabaci</u> (Genn.) Infestations and Its Relation with Tomato Leaf Curl Virus and Tomato Yield	38
a- Whitefly Infestation	
b- Tomato Yellow Leaf Curl Virus	
C- Effect of Irrigation on the Activity of <u>B. tabaci</u> (Genn.)	48
a- Effect of Irrigation Systems on the Activity of <u>B. tabaci</u>	
b- Effect of Number of Irrigations	
D- The Economic Damage Threshold and Economic Injury Level of <u>B. tabaci</u> (Genn.) on Tomato Plants	57
a- The Relation between Number of <u>B. tabaci</u> Adults and Tomato Yield	

b- The Infestation - Yield Relationship	
c- Relation between Immature and Abult Stages.....	
E- Effect of Non - Traditional Insecticide in Controlling	69
<u>B. Tabaci</u> (Genn.)	
a- Effect on the Population Density	
b- Effect on Tomato Yield.....

List Of Tables

Table	Page
1 Mean weekly number of <u>B. tabaci</u> on different host Plants in Giza region during the Summer Plantation 1991	24
2 Mean weekly number of <u>B. tabaci</u> on different host Plants in Giza region during the Summer Plantation 1992	26
3 Mean weekly number of <u>B. tabaci</u> on different host Plants in Giza region during the Nili Plantation 1991	29
4 Mean weekly number of <u>B. tabaci</u> on different host Plants in Giza region during the Nili Plantation 1992	31
5 Mean number of <u>B. tabaci</u> on different host plants in Giza region during the Summer and Nili Plantation of 1991 and 1992	35
6 Effect of tomato planting dates in Nili plantation (Giza Governorate 1992) on weekly number of <u>B. tabaci</u> adults and its relation with tomato yellow leaf curl virus	39
7 Effect of tomato planting dates in Nili plantation (Giza Governorate 1993) on weekly number of <u>B. tabaci</u> adults and its relation with tomato yellow leaf curl virus	41
8 Effect of tomato planting in two successive Nili seasons (1992 & 1993) on the mean number of <u>B. tabaci</u> adults leaf	44
9 Effect of tomato planting in two successive Nili seasons (1992 & 1993) on the rate of infestation of tomato yellow leaf curl virus	44
10 Effect of tomato planting dates during two successive seasons of Nili plantation on yield (k.g)	45
11 Average number of adult, egg and nymphal stages of <u>B. tabaci</u> during tomato growing season of 1993	50

List Of Tables

Table	Page
12 Averde number of adult, egg and nymphal stages of <u>B. tabaci</u> during tomato growing season of 1994	52
13 Effect of irrigation number on the population of <u>B. tabaci</u> adults through weekly inspections during Nili plantation of 1993	55
14 Effect of irrigation number on the population of <u>B. tabaci</u> adults through weekly inspections during Nili plantation of 1994	55
15 Averde number of <u>B. tabaci</u> and the corresponding tomato yield (Ton) (Giza Experiment 1992)	58
16 Averde number of <u>B. tabaci</u> and the corresponding tomato yield (Ton) (Giza Experiment 1993)	60
17 The relationship between percentage of infestation of <u>B. tabaci</u> and tomato yield	63
18 Calculations of Chi-square (X) for the varicous points on the regression line (% infestation on yield) (Giza Governorate in Nili plantation) (1992)	64
19 Calculations of Chi-square (X) for the varicous points on the regression line (% infestation on yield) (Giza Governorate in Nili plantation) (1993)	64
20 Population of <u>B. Tabaci</u> on tomato Nili planton in Giza Governorate (Imbaba district) during 1993	66
21 Population of <u>B. Tabaci</u> on tomato Nili planton in Giza Governorate (Imbaba district) during 1994	66
22 Population of <u>B. Tabaci</u> on tomato Nili planton in Giza Governorate (Imbaba district) mean 1993 & 1994	70
