*Professor of Psychiatry - Ain Shams University*

**Professor Mona Abdel Hamid Raafat**

*Professor of Neurology - Ain Shams University*

1996

## **Acknowledgment**

*I am profoundly grateful to Professor Moustafa Kamel Ismail Chairman of the neuropsychiatric department Ain Shams University for his help, guidance and supply of recent literature.*

*My sincere thanks goes to Professor Adel Sadek Amer Professor of Psychiatry Ain Shams University for his enthusiastic support, guidance and fatherly help.*

*I am indebted to Professor Mona Raafat Professor of Neurology Ain Shams University for her unfailing support, her guidance, her presence at all times, her enthusiasm which was radiating and her meticulous revision of the work without which this work would have not been possible.*

*To Professor Afaf Hamed Professor of Psychiatry Ain Shams University, the work would have not been complete without your kind referrals, support and supply of recent literature.*

*Words cannot express my extreme thanks and gratitude to Dr Susan El Kholi Consultant Clinical Psychologist at the Institute of Psychiatry Ain Shams University for her help in choosing, conducting and perfecting the neuropsychological batteries of this study without which this work would not be in its present form. I would also like to thank psychologist Mr Mohamed Amin for his kind help.*

*I would like to thank all my colleagues at the neuropsychiatric department Ain Shams University for their support especially Dr Maha Sayed for all her help with the evoked potentials and search for literature, Dr Mohamed Yossef and Dr Hisham Ramy for their continuous referral of inpatients and outpatients at the Institute of Psychiatry.*

*I would like to acknowledge the kind assistance of my wife Jillan for her support, understanding and help in typing this work and to my brother Hisham Okasha for his help continuous availability and for acquainting me with the computer environment which was necessary in bringing this work to its present form.*

*Last but not least, my deepest appreciation, love and admiration goes to the man who made all this possible my father, friend and teacher Professor Ahmed Okasha.*

## **List of Tables**

<i>Table-1</i>	<i>Sample characteristics</i>
<i>Table-2</i>	<i>Patients characteristics</i>
<i>Table-3</i>	<i>Comparison between patients and controls on the WCST performance</i>
<i>Table-4</i>	<i>Comparison between patients and controls on the WMS-R performance</i>
<i>Table-5</i>	<i>Comparison for ERP latencies between patients and control</i>
<i>Table-6</i>	<i>Comparison for ERP amplitudes between patients and control</i>
<i>Table-7</i>	<i>Comparison between different stages of treatment in group 1 regarding the WCST and WMS-R</i>
<i>Table-8</i>	<i>Comparison between different stages of treatment in group 2 regarding the WCST and WMS-R</i>
<i>Table-9</i>	<i>Comparison between different stages of treatment in group 3 regarding the WCST and WMS-R</i>
<i>Table-10</i>	<i>Comparison between different stages of treatment in group 1 and ERP amplitude (rare)</i>
<i>Table-11</i>	<i>Comparison between different stages of treatment in group 1 and ERP amplitude (frequent)</i>
<i>Table-12</i>	<i>Comparison between ERP latency and response to treatment in group 1 (rare)</i>
<i>Table-13</i>	<i>Comparison between ERP latency and response to treatment in group 1 (frequent)</i>
<i>Table-14</i>	<i>Comparison between ERP amplitude and response to treatment in group 2 (rare)</i>

- Table-15      *Comparison between ERP amplitude and response to treatment in group 2 (frequent)*
- Table-16      *Comparison between ERP latency and response to treatment in group 2 (rare)*
- Table-17      *Comparison between ERP latency and response to treatment in group 2 (frequent)*
- Table-18      *Comparison between ERP amplitude and response to treatment in group 3(rare)*
- Table-19      *Comparison between ERP amplitude and response to treatment in group 2 (frequent)*
- Table-20      *Comparison between ERP latency and response to treatment in group 3(rare)*
- Table-21      *Comparison between ERP latency and response to treatment in group 3(frequent)*
- Table-22      *Difference between groups on WMS-R after 2 weeks*
- Table- 23      *Difference between groups on WMS-R performance after 6 weeks*
- Table-24      *Difference between groups on WCST performance after 6 weeks*
- Table-25      *Difference between groups in ERP latency after 2 weeks*
- Table-26      *Difference between groups in ERP amplitude after 2 weeks*
- Table-27      *Difference between groups in ERP latency after 6 weeks*
- Table-28      *Difference between groups in ERP amplitude after 6 weeks*
