

MESENTERIC VASCULAR DISEASE APPROACH TO DIAGNOSIS AND TREATMENT

Essay

Submitted in partial fulfillment of
Master Degree in **General Surgery**

By

Abd Alla Abd El Aziz Abd Alla

M.B., B.Ch.

Supervised by

Prof. Dr. Adel Fahim Ain Shouka

Professor of General Surgery

Faculty of Medicine, Ain Shams University

Dr. Said Sayed Abd El Baky

Assist. Professor of General Surgery

Faculty of Medicine, Ain Shams University

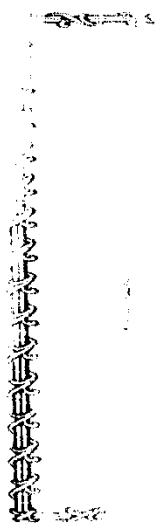

Dr. Ayman Abd Alla Abd Rabu

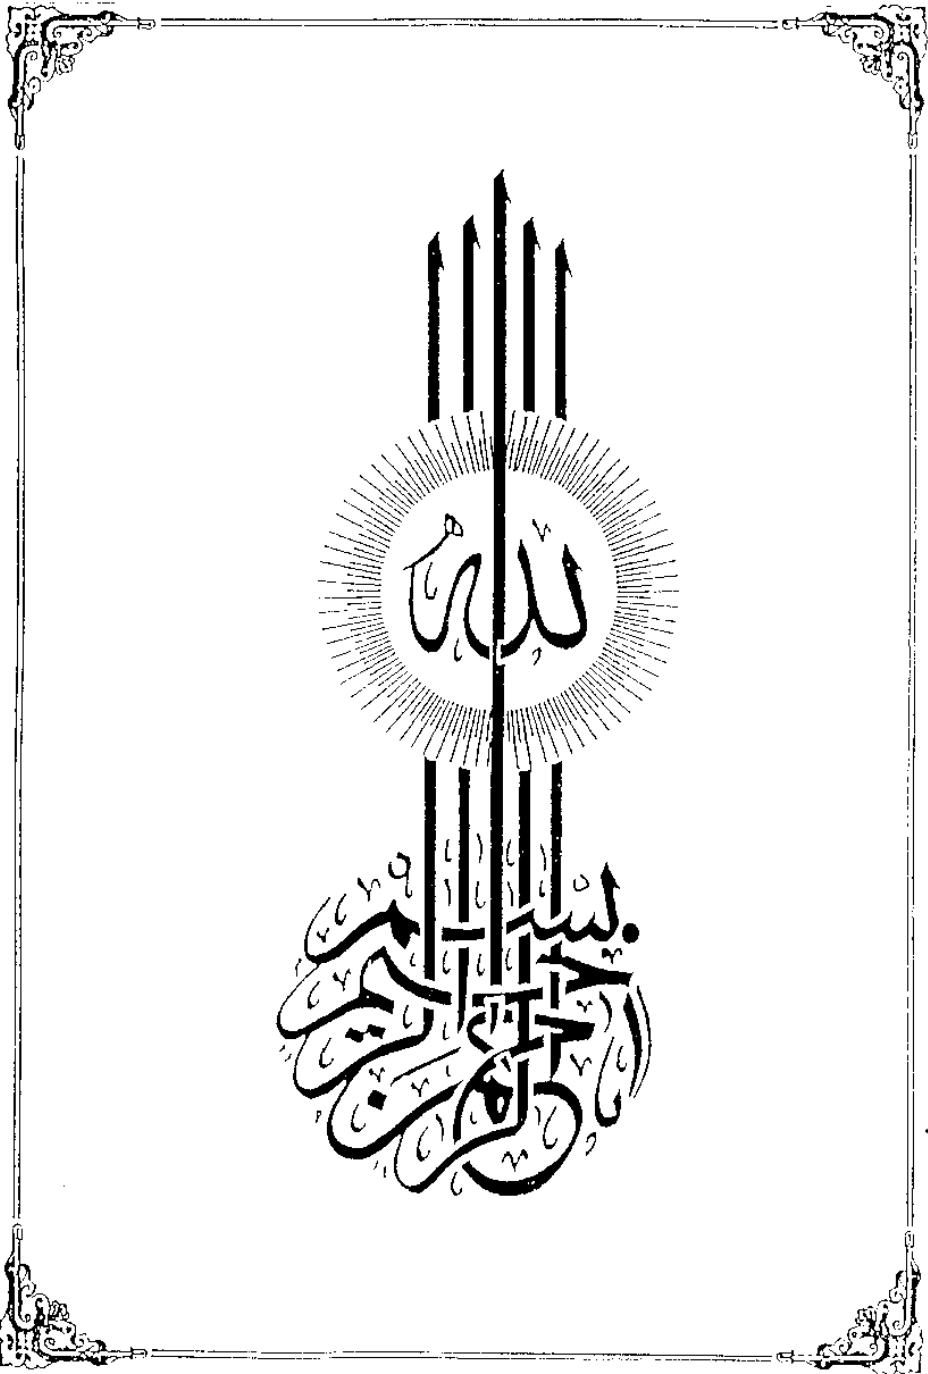

Lecturer of General Surgery

Faculty of Medicine, Ain Shams University

Acknowledgment

First and foremost, Thanks GOD to whom I relate any success in achieving any work in my life.

I wish to express my deepest gratitude and appreciation to Prof. Dr. Adel Fahim Ain Shouka, Professor of General Surgery, Faculty of Medicine, Ain Shams University, who suggested this subject and gave me its broad outlines. It is a real pleasure to acknowledge his sincere encouragement.

I would also like to express my sincere thanks and deepest gratitude to Dr. Said Sayed Abd El Baky, Assist. Prof. of General Surgery, Faculty of Medicine, Ain Shams University, for his honest help, constant advice, keen interest and guidance throughout the performance of this work.

I am deeply indebted to Dr. Ayman Abd Alla Abd Rabou, Lecturer of General Surgery, Faculty of Medicine, Ain Shams University, for his supervision, encouragement and help.

CONTENTS

	Page
• Introduction and aim of the work	1
• Mesentric vascular anatomy	3
• Pathophysiology of acute mesenteric ischemia	22
• Etiology and incidence of acute arterial mesenteric ischemia	35
• Clinical presentation of acute mesenteric ischemia	60
• Diagnosis of acute mesenteric ischemia	67
• Treatment of acute mesenteric ischemia	82
• Operative assessment of intestinal viability	93
• Second look operations	104
• Colonic ischemia	106
• Chronic mesenteric ischemia	125
• Summary	148
• References	152
• Arabic Summary	

LIST OF TABLES

Tab. No.	Title	Page
1	Conditions associated with arterial occlusion and vasculitis leading to mesenteric ischemia	37
2	Condition associated with MVT	49
3	Condition leading to splanchnic vasoconstriction and mesenteric ischemia	59
4	Frequency % of symptoms associated with MVT	65
5	Physical findings on admissions % in patients with confirmed MVT	66
6	Summary of tests of intestinal viability	98
7	Causes of colonic ischemia	108
8	Differential diagnosis of ischemic colitis	115
9	Causes of chronic visceral ischemia	125
10	Chronic mesenteric ischemia	147

LIST OF FIGURES

Fig. No.	Title	Page
1	Origin of celiac trunk and its branches	7
2	Blood supply of the intestine	16
3	The meandering mesenteric artery	21
4	Transient ischemia of small bowel with superficial mucosal necrosis involving the villi	25
5	Acute ischemia	26
6	changing patterns of acute mesenteric vascular disease	36
7	Angiographic diagnosis of AMI	72
8	Angiographic diagnosis of AMI	73
9	Plain film of the abdomen showing the tonometer positioned distally to the ligament of Treitz	77
10	Application of the Doppler ultrasound device to the mesenteric vessels, mesentery-bowel junction.	97
11	Incidence of colonic ischemia in 250 cases	III
12	Anteroposterior views from barium enema studies	119
13	Diagram of arcuate ligament compression of the celiac axis	127
14	Aortographic diagnosis of chronic visceral ischemia. Anteroposterior projection	136
15	Aortographic diagnosis of chronic visceral ischemia. Lateral projection	137

INTRODUCTION AND AIM OF THE WORK
