

SERUM LIPIDS AND LIPOPROTEINS CHOLESTEROL IN WOMEN WITH POLYCYSTIC OVARIAN DISEASE

Thesis

Submitted in Partial Fulfillment of
M.S. Degree in
Obstetrics and Gynecology

By

Azza Awad Abd El Razik
M.B., B.Ch. Ain Shams University

Supervised by

Dr. Hazem Amin El Zeniny
Ass. Proffessor of Obstetrics and Gynecology
Faculty of Medicine
Ain Shams University

Dr. Mohamed Ashraf Mohamed Farouk Kortam

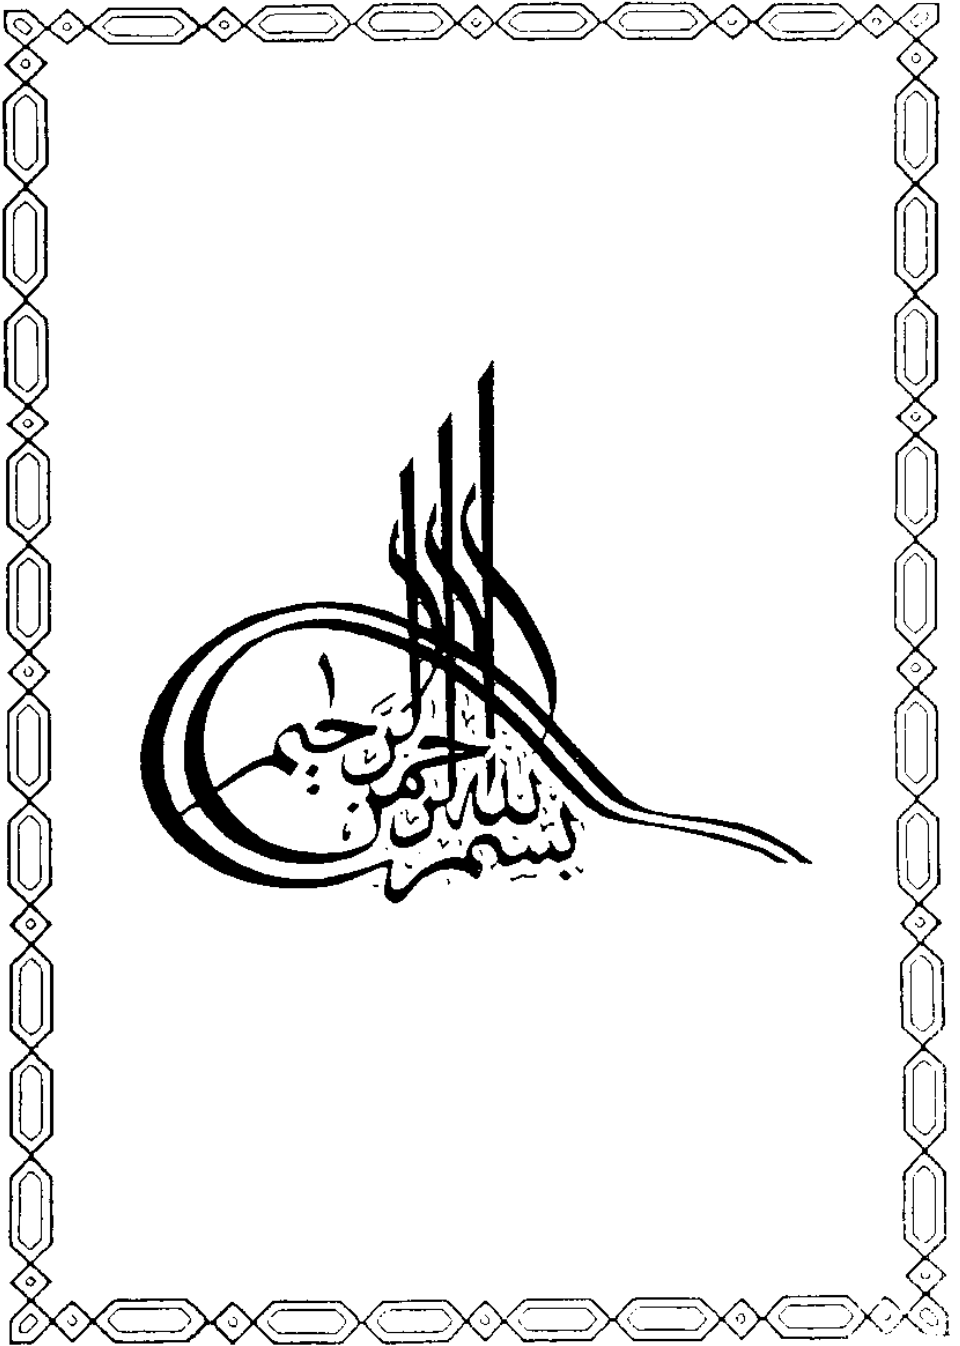

Lecturer of Obstetrics and Gynecology
Faculty of Medicine
Ain Shams University

Dr. Mona Mohamed Zaki

Lecturer of Clinical Pathology
Faculty of Medicine
Ain Shams University

Acknowledgement

I wish to express my deepest gratitude and appreciation to Dr. **Hazem Amin El-Zeniny**, Ass. Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University, for the help, sincere guidance and support he constantly offered throughout the period of preparation of this thesis.

Special thanks and appreciation for Dr. **Mohamed Ashraf Mohamed Farouk Kortam**, Lecturer of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University, who offered his precious time and help in achieving this work.

I am also indebted to Dr. **Mona Mohamed Zaki**, Lecturer of Clinical Pathology, Faculty of Medicine, Ain Shams University, who so willingly offered all technical laboratory facilities and experience to achieve this work.

Last but not least, I would like to thank every patient accepted to be part of this work. Also I would like to thank every person attending the discussion of this thesis.

LIST OF TABLES

Tab. No.	Title	Page
	Table in Review	
1	Associated pathology in 62 infertile patients with PCOD	54
	Tables in Results	
1	Descriptive data on 20 cases with PCOD	74
2	Laboratory data on 20 cases with PCOD	75
3	Descriptive data on 20 control subjects	76
4	Laboratory data on 20 control subjects	77
5	Comparison between cases and control group regarding age	81
6	Comparison between cases and control group regarding weight	82
7	Comparison between cases and control group regarding height	83
8	Comparison between cases and control group regarding body mass index	84
9	Comparison between cases and control group regarding systolic blood pressure	85
10	Comparison between cases and control group regarding diastolic blood pressure	86
11	Comparison between cases and control group regarding serum cholesterol level	87
12	Comparison between cases and control group regarding serum low-density lipoprotein cholesterol level	89
13	Comparison between cases and control group regarding serum high-density lipoprotein cholesterol level	91

14	Comparison between cases and control group regarding serum triglycerides level	93
15	Comparison between cases and control group regarding atherogenic risk factor (LDL-C/HDL-C ratio)	95
16	Comparison between cases and control group regarding atherogenic risk factor (cholesterol/HDL-C ratio)	97

LIST OF FIGURES

Fig. No.	Title	Page
1	Comparison between cases and control group regarding menstrual cycle	78
2	Comparison between cases and control group regarding parity	79
3	Comparison between cases and control group regarding hirsutism	80
4	Comparison between cases and control group regarding serum cholesterol level	88
5	Comparison between cases and control group regarding serum LDL-C level	90
6	Comparison between cases and control group regarding, serum HDL-C level	92
7	Comparison between cases and control group regarding serum triglyceride level	94
8	Comparison between cases and control group regarding atherogenic risk factor (LDL-C/HDL-C ratio)	96
9	Comparison between cases and control group regarding atherogenic risk factor (Cholesterol/HDL-C ratio)	98
