

**AN INTEGRATED APPROACH FOR THE
CONTROL OF LYMPHATIC FILARIASIS,
USING ENVIRONMENTALLY SAFE ANTI-
MOSQUITO AND ANTI-PARASITE AGENTS**

**A Thesis
Presented to the Faculty of Science
Ain Shams University**

**For the Award of the
Ph. D. Degree**

**By
Maha Kamal Tewfick
B.Sc. and M. Sc.**

Research Assistant, Research and Training Center on Vectors of
Diseases, Ain Shams University

Department of Entomology
Faculty of Science
Ain Shams University
Cairo, Egypt.

Supervisors:

- Prof. Dr. Bahira El Sawaf
Head of Entomology Dept., Faculty of Science,
Ain Shams University.
- Dr. Hoda A. Farid
Assistant professor of Entomology, Faculty of Science,
Ain Shams University.
- Dr. Adel K. El Sayed
Assistant professor of Entomology, Faculty of Science,
Ain Shams University.
- Dr. Belal A. Soliman
Assistant professor, Faculty of Education,
Suez Canal University.

Biography

Date & Place of birth: 4 January, 1961, Cairo.

Degrees awarded : B. Sc. Entomology, 1982,
Faculty of Science,
Ain Shams University, Egypt.

M. Sc. Entomology, 1990.
Faculty of Science,
Ain Shams University, Egypt.

Occupation : Research assistant, Research and Training
Center on Vectors of Diseases,
Ain Shams University.

Date of registration : May, 1991.
for the Ph.D.

Acknowledgments

The author wishes to express her thanks and gratitude to Dr. Adel M. Gad, Professor of Entomology, Faculty of Science, Ain Shams University, for suggesting the point of research, supervising the work and continuous guidance and encouragement. The critical reading of the manuscript by Dr. Gad is deeply acknowledged.

Many thanks and gratitude are also due to Dr. Adel I. Merdan, Professor of Entomology, Faculty of Science, Ain Shams University, for his valuable supervision and encouragement throughout the present study.

Thanks are due to Prof. Dr. Bahira El Sawaf, Head of Entomology Department and Director of Research and Training Center on Vectors of Diseases, Ain Shams University for her kind encouragement and offering facilities.

Thanks are specially due to Dr. Hoda A. Farid, Assistant Professor of Entomology, Faculty of Science, Ain Shams University, for her sincere assistance and critical reading of the manuscript.

Thanks are also due to Dr. Adel K. El Sayed, Assistant Professor, Faculty of Science, Ain Shams University for his kind guidance and encouragement.

Many thanks and appreciation are specially due to Dr. Belal A. Soliman, Assistant Professor, Faculty of Education, Suez Canal University, for his sincere and continuous guidance and advice during the present study.

Finally, I would like to acknowledge all staff members of the Research and Training Center on Vectors of Diseases, Ain Shams University , for their friendly help and support.

LIST OF CONTENTS

| | Page |
|--|----------|
| Abstract | I |
| List of tables..... | II |
| List of figures | VI |
| I. Introduction | 1 |
| II. Literature review | 4 |
| 1. Mosquito larvicidal agents | 4 |
| 1.1. Impact of bacterial larvicidal agent on the biological parameters of female mosquitoes | 6 |
| 1.1.1. Fecundity | 6 |
| 1.1.2. Fertility | 7 |
| 1.1.3. Survival..... | 8 |
| 1.2. Impact of bacterial larvicidal agents on the vector competence of mosquitoes to filariasis | 9 |
| 1.2.1. Ingestion of microfilariae..... | 9 |
| 1.2.2. Parasite burden..... | 10 |
| 2. Microfilaricidal agents | 10 |
| 2.1. Impact of microfilaricidal agents on the biological parameters of mosquitoes..... | 12 |
| 2.1.1. Gonotrophic cycle..... | 12 |
| 2.1.2. Fecundity..... | 13 |
| 2.1.3. Fertility | 14 |
| 2.1.4. Ovarian development..... | 15 |
| 2.1.5. Survival..... | 16 |

| | |
|--|-----------|
| 2.2. Vector competence to <i>W. bancrofti</i> of mosquitoes treated with microfilaricidal agents | 19 |
| 2.2.1. Ingestion of microfilariae..... | 19 |
| 2.2.2. Development of filarial parasite..... | 23 |
| 2.2.3. Infection and infectivity rates | 24 |
| 2.2.4. Parasite burden | 27 |
| III. Materials and methods..... | 30 |
| 1. Mosquito collection and identification..... | 30 |
| 2. Mosquito rearing..... | 30 |
| 3. Mosquito control agents..... | 31 |
| 4. Bioassay tests..... | 32 |
| 4.1. Bioassay of <i>B. sphaericus</i> | 33 |
| 4.2. Bioassay of ivermectin..... | 33 |
| 5. Treatment of <i>Cx. pipiens</i> mosquitoes with the control agents..... | 35 |
| 5.1. Treatment of <i>Cx. pipiens</i> larvae with <i>B. sphaericus</i> and ivermectin | 35 |
| 5.2. Treatment of <i>Cx. pipiens</i> females with ivermectin | 36 |
| 5.3. Combined treatment of both larvae and adults of <i>Cx. pipiens</i> with <i>B. sphaericus</i> and ivermectin | 37 |
| 6. Biological parameters of <i>Cx. pipiens</i> females surviving sublethal concentrations of control agents..... | 37 |

| | |
|--|----|
| 6.1. Duration of the gonotrophic cycle | 37 |
| 6.2. Fecundity and fertility | 38 |
| 6.3. Ovarian development and blood digestion..... | 38 |
| 7. Effect of control agents on vector competence of <i>Cx. pipiens</i> adult mosquitoes to <i>W. bancrofti</i> | 39 |
| 7.1. Uptake of microfilariae..... | 40 |
| 7.2. Development of the parasite..... | 41 |
| 7.3. Mosquito survival rate | 41 |
| 7.4. Infection and infective rates and parasite burden | 41 |
| 7.5. Loss of filarial infective larvae post-second blood meal..... | 42 |
| 7.6. Detrimental effect of bioagents on <i>W.</i> <i>bancrofti</i> larvae..... | 43 |
| 8 . Statistical analysis..... | 43 |
| IV. Results | 45 |
| 1. Effect of <i>B. sphaericus</i> on <i>Cx. pipiens</i> | 45 |
| 1.1. Determination of a sublethal dose of <i>B.</i> <i>sphaericus</i> to <i>Cx. pipiens</i> larvae..... | 45 |
| 1.2. Effect of <i>B. sphaericus</i> larval treatment on the biological parameters of <i>Cx. pipiens</i> | 50 |
| 1.2.1. Biological parameters of non-infected mosquitoes..... | 50 |
| 1.2.1.1. Survival..... | 50 |

| | |
|--|----|
| 1.2.1.2. Ovipositional attributes..... | 53 |
| 1.2.2. Biological parameters of filaria-infected mosquitoes..... | 55 |
| 1.2.3. Vector competence to <i>W. bancrofti</i> of <i>Cx. pipiens</i> surviving bacterial larval treatment..... | 57 |
| 1.2.3.1. Uptake of microfilariae..... | 57 |
| 1.2.3.2. Survival to infectivity..... | 58 |
| 1.2.3.3. Infection and infective rates | 61 |
| 1.2.3.4. Parasite burden..... | 62 |
| 2. Ivermectin..... | 62 |
| 2.1. Determination of a sublethal dose of ivermectin to <i>Cx. pipiens</i> larvae..... | 62 |
| 2.2. Effect of ivermectin larval treatment on <i>Cx. pipiens</i> | 64 |
| 2.2.1. Biological parameters of non-infected mosquitoes..... | 64 |
| 2.2.1.1. Survival to 15 d post-feeding | 64 |
| 2.2.1.2. Ovipositional attributes..... | 67 |
| 2.2.2. Biological parameters of filaria-infected mosquitoes | 69 |
| 2.2.3. Vector competence to <i>W. bancrofti</i> of <i>Cx. pipiens</i> surviving ivermectin larval treatment..... | 71 |
| 2.2.3.1. Uptake of microfilariae..... | 71 |
| 2.2.3.2. Survival to infectivity..... | 73 |
| 2.2.3.3. Infection and infective rates..... | 78 |
