ACKNOWLEDGEMENT

First and foremost, I thank God the Merciful and the Compassionate.

I would like to express my deepest gratitude and appreciation to my Professor Dr. Khalil Ismail El-Lamei, Professor of Obstetrics and Gynaecology, Faculty of Medicine, Ain Shams University, to whom I am greatly indebted and deeply grateful for his constant supervision and encouragement together with his valuable suggestions. He provided me with the best knowledge and facilities without which I would not have been able to complete this work.

I would also like to express my deep gratitude and thanks to Dr. Maged R. Abou-Seeda, Lecturer of Obstetrics and Gynaecology, Faculty of Medicine, Ain Shams University for his kind supervision, continuous guidance, help and encouragement.

I am deeply grateful to Prof. Dr. Mohamed B. Sammour, Professor of Obstetrics and Gynaecology, and the Head of the Early Cancer Detection Unit, at Ain-Shams New Maternity Hospital where this work has been done under his guidance and sincere help.

I am also grateful to Dr. Sherif S. Abdel-Salam, the Colposcopist in the Early Cancer Detection Unit, for his faithful help. To complete this work, he gave me generously his time and effort.

Moustafa M. Salama

Introduction
