ACKNOWLEDGEMENT

Praise and prayerful thanks to *ALLAH* for every thing.

The author is greatly indebted to **Prof. Dr. Mohamed Khairy Ibrahim** professor of Animal breeding, Faculty of Agriculture, Moshtohor, Zagazig University (Banha Branch) for his kind supervision, encouragement sincere and valuable advice during the various stages of this work.

The author also offers his gratitude to **Prof. Dr. Abdel-Karim I. El-Sayed** professor of Animal Physiology, Faculty of Agriculture, Moshtohor, Zagazig University (Banha Branch) for his supervision, valuable assistance and suggestions, useful advice and guidance throughout this investigation.

I wish to express my sincere appreciation to **Dr. Magdy A. Soltan**, assistant professor of Fish Nutrition, Faculty of Agriculture, Moshtohor, Zagazig University (Banha Branch) for his close supervision, valuable help and guidance during the progress of this work.

I would to express my deepest thanks to the staff member of the Department of Animal Production, Faculty of Agriculture, Moshtohor.

Last but not least my deep heartily thanks to my family for her continuous encouragement, mortal support and patience throughout my study period.
