

REGIONAL ANALGESIA IN PEDIATRICS

Essay

*Submitted in Partial Fulfillment For
The Degree Of M.Sc.*

In

Anesthesiology

By

Dina Yehia Kassim

(M.B., B.Ch. - Ain Shams University)

Supervised by

Prof. Seif El-Islam Abdel Aziz Shain

Professor of Anesthesia
Faculty of Medicine
Ain Shams University

Dr. Hany Mohamed El-Zahaby

Lecturer of Anesthesia
Faculty of Medicine
Ain Shams University

Faculty of Medicine

Ain Shams University

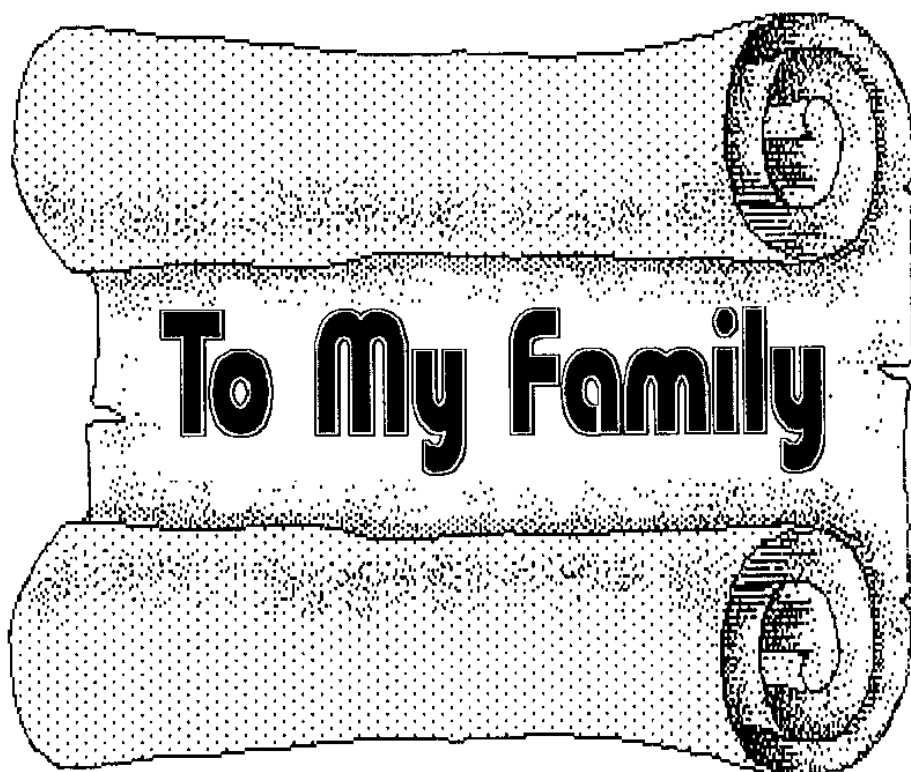

1996

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْحَكِيمُ﴾
صدق الله العظيم

(الآية ٣٢ سورة البقرة)

Acknowledgment

I wish to express my deepest thanks and gratitude to ***Professor Dr. Seif El-Islam Abdel Aziz Shahin***, Professor of Anesthesia, Faculty of Medicine, Ain Shams University, for giving me the advance of working under his supervision. I also appreciate his support and helpful guidance.

I would like to extend my sincere appreciation and thanks to ***Dr. Hany Mohamed El-Zahaby***, Lecturer of Anesthesia, Faculty of Medicine, Ain Shams University, for his guidance, constructive criticism, and his constant assistance throughout my work.

Dina Yehia Kassim

CONTENTS

• Introduction	1-2
• Chapter (1) :	
Anatomical and Physiological Considerations....	3-22
1- Anatomical consideration	3
2- Physiological consideration.....	15
• Chapter (2) :	
Local Anesthetics : Pharmacology and Toxicity.	23-43
1- Basic Pharmacology.....	23
2- Pharmacodynamics.....	29
3- Pharmacokinetics.....	31
4- Toxicity of local anesthetic drugs.....	37
• Chapter (3) :	
Advantages and Disadvantages of Regional Analgesia.....	44-52
1- Advantages.....	44
2- Disadvantages.....	51
• Chapter (4) :	
Techniques of Regional Analgesia.....	53-101
1- Caudal analgesia.....	53
2- Epidural analgesia.....	58
3- Spinal analgesia.....	65
4- Peripheral nerve blocks.....	68
i. Upper limb blocks.....	70
ii. Blocks of nerves of the trunk.....	81
iii. Lower limb blocks.....	89
5. Intravenous regional anesthesia.....	98
• Summary.....	102-103
• References.....	104-134
• Arabic Summary.....	

List of Figures

Fig. No.		Page No.
1.	Age-related differences in the anatomy of the spinal cord and meninges	3
2.	Effects of spinal movements on the spinal cord and the roots.....	4
3.	Surface landmarks of epidural space.....	5
4.	Brachial plexus nerve supply to the skin...	8
5.	Course of ilioinguinal and iliohypogastric nerves, the landmarks and the needle insertion site.....	10
6.	Femoral nerve (A) Course. (B) Skin supply	12
7.	Lateral cutaneous nerve of the thigh (A) Course. (B) Skin supply.....	13
8.	Chemistry of local anesthetic molecule.....	23
9.	Linkage of a butyl group to the amine end of mepivacaine yields bupivacaine.....	25
10.	Relationship of lipid solubility to anesthetic patency.....	25
11.	Relationship of onset of action of local anesthetic agents to their pKa and percentage of drug in un-ionized form.....	27

12. Local anesthetics slow the rate of depolarization of the nerve action potential such that threshold potential is not reached.....	30
13. Caudal block : the landmarks and the needle position.....	54
14. Technique of epidural block.....	61
15. Axillary block: technique of arterial palpation and needle insertion.....	71
16. Distribution of anesthetic solution following axillary blocks.....	73
17. Interscalene approach : landmarks, site of puncture, and insertion route.....	74
18. Distribution of anesthetic solution after interscalene approach.....	74
19. Parascalene approach to brachial plexus block.....	76
20. Distribution of anesthetic solution following parascalene approach.....	77
21. Position of the child for lateral and posterior approach of intercostal nerve block.....	82
22. Technique of lateral intercostal nerve block	83

23. Technique of posterior intercostal nerve block.....	84
24. Landmarks for ilioinguinal and iliohypogastric nerve blocks.....	87
25. Penile nerve block via the subpubic space..	88
26. Technique of femoral nerve block.....	90
27. Continuous femoral nerve block.....	92
28. Landmarks for posterior approach of sciatic nerve block.....	95
29. Position and landmarks for supine approach of sciatic nerve block.....	96
30. Lateral approach of sciatic nerve block.....	96
31. landmarks for anterior approach to sciatic nerve block.....	97
32. Intravenous regional anesthesia. (A) Placement of the two tourniquets and exsanguination of the limb. (B) Deflation of the upper tourniquet	99
