

VALUE AND LIMITATION OF ECHOCARDIOGRAPHY IN THE DIAGNOSIS OF CARDIOMYOPATHY

ESSAY

Submitted in Partial Fulfillment for the
Master Degree in
Cardiology

BY

Mohamed Refaat Ahmed Maasawi

- M. B., B. Ch.

Supervised By

Prof. Dr.

AMAL AYOUB

Professor of Cardiology

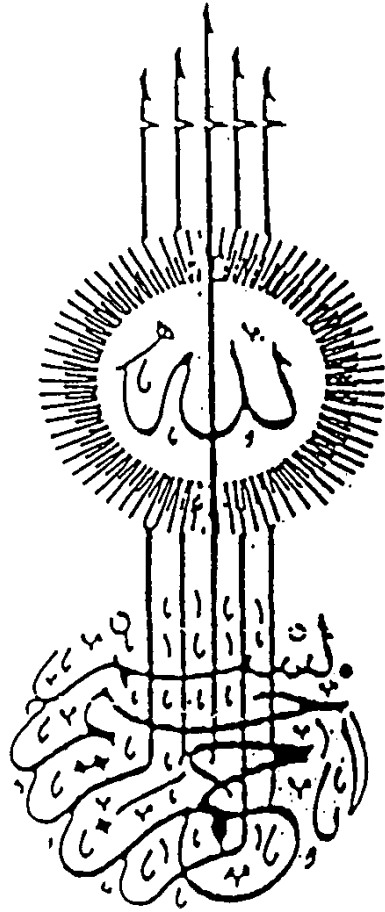

Dr.

WAGDY A. GALAL

Lecturer of Cardiology

Faculty of Medicine
Ain Shams University

1985

شُبحانَكَ يا عَلمَ لَنا يا اِمامَ عَلمَتنا

TO MY PARENTS

William Shakespeare might just as suitably have been describing diagnostic ultrasound instead of the "Spirit of love" when he wrote Twelfth Night.

"Naught enters there,
Of What Validity, and pitch soe'er,
But falls into abatement and low price,
Even in a minute."

To recognize this is to acknowledge progress and the promise of more to come.

A C K N O W L E D G E M E N T

I was fortunate to carry out this work under the guidance of Prof. Dr. Amal Ayoub , M.D. whose continuous encouragement and supervision had a decisive influence in the performance of this work.

For her no words of thanks or gratitude are sufficient.

I stand as well in great debt to Dr. Wagady Galal M.D. who offered me a lot of his time and contributed greatly to bring this work to its form through his suggestion, valuable observations and critical remarks.

Prof. Dr. Amal Ayoub and Wagdy Galal taught me what is it like to do a useful and meaningful work, this is something I will always keep in my heart.

Great thanks are paid to the staff member of Cardiology Department for their noble characters and kind sympathy in the accomplishment of this work.

Mohamed Rifaat Ahmed Maasargi

CONTENTS

	Page
<u>Chapter I</u> : Introduction	1
<u>Chapter II</u> : Review of literature	
* Historical aspect	3
* Definition and classification	6
* Dilated Cardiomyopathy :	
- Etiology and pathogenesis	10
- Pathology	15
- Abnormal physiology	18
- Clinical manifestations	19
- Investigations	22
- Echocardiogram	24
* Hypertrophic Cardiomyopathy :	
- Definition	34
- Etiology and pathogenesis	36
- Pathology	40
- Abnormal physiology	44
- Clinical manifestations	48
- Investigations	52
- Echocardiogram	56
- M-mode	57
- Two-dimensional echocardiography .	65

- Pulsed Doppler echocardiography	Page 98
* Restrictive Cardiomyopathy :	
- Definition, etiology and pathogenesis	102
- Abnormal physiology	104
- Clinical manifestations	105
- Endomyocardial fibrosis	107
- Etiology	107
- Pathology	109
- Right endomyocardial fibrosis	110
- Clinical manifestations.	110
- Investigations	111
- Left endomyocardial fibrosis	112
- Clinical manifestations	112
- Echocardiogram	113
- Echocardiogram in endomyocardial fibrosis	114
- Cardiac amyloidosis	118
- Pathology	118
- Clinical manifestations	118
- Investigations	119
- Echocardiogram	121
- Echocardiogram in inherited infiltrative disorders causing cardiomyopathy	126
- Contrast echocardiogram	129
* Special application for echocardiogram :	
- Endomyocardial biopsy guided by cross-sectional echocardiogram	131

- Non-invasive estimation by stress-echo and echocardiography of myocardial damage in cardiomyopathy	137
* Value and limitation of echocardiogram in assessment of cardiomyopathy	135
<u>Chapter III :</u> Summary	142
Chapter IV : References	150
Chapter V : Arabic Summary	160
