ACKNCOLOGEMENT

First,thanks to ALLAH who gave the power to carry out the present work honestly and faithfully.

The expression of one's gratitude is sometimes beyond words and is only felt by the sincere.

To my Prof. Dr. Salwa Taha, Professor of Radiodiagnosis, Ain Shams University, I sincerely feel indebted, for her encouragement and for continuous advice, support and guidance throughout this work.

Special thanks are given to all the staff of Radiodiagnosis Department. Ain Shams University and Maadi Armed Forces Hospital and my colleagues for all the facilities and support they offered.

To my Father,

My Mother,

My Wife

and My Son.

For their love and support
