ACKNOWLEDGMENT

I would like to express my deep gratitude to professor Dr. Khalil Abd El-Hadi, Professor of Pediatrics, faculty of Medicine Ain-Shams University for his generous help and kind supervision.

I am deeply grateful to professor Dr. Sohair Salem, professor of Nutritional Biochemistry, National Research Center for her great patience, valuable suggestions, instructive supervision and encouragement.

I feel deeply thankful to professor Dr. Ismail Sadek, Asst. Professor of Pediatric, Faculty of Medicine, Ain-Shams University, for her guidance and advice that were of great importance.

I wish also to record my gratitude to professor Dr. Ahmed Fakry, Asst. Professor of Biochemistry, National Research Center, for his sincere help in the assessment of the biochemical data.

I am also grateful to professor Dr. Nagwa Abd ALAH, Asst. Professor of Pediatrics, National Research Center, for her kind supervision and precious advice.

My deep thanks to Professor Dr. Rafat Tah Asst. Professor of Nutrition, National Research Center, Child Health Department, for his cooperation and assistance.

CONTENTS

I. INTRODUCTION	1
II. REVIEW	3
II.A.Breast Feeding	4
II.A.1 Physical characteristic of human milk	
II.B.Biochemical Composition of Breast Milk	4
II.B.1 Water	
II.B.2 Lipids	
II.B.3 Protein	
II.B.4 Carbohydrates	
II.B.5 Vitamins	
II.B.6 Minerals	
II.B.7 IgA	
II.C.Factors Influencing Milk Composition	12
II.C.1 Stages of lactation	
II.C.2 Age of the lactating mother	
II.C.3 Variation through the day	
II.C.4 Baby's demand	

II.D.Factors Affecting Breast Feeding In The Community 14

II.D.1 Ethnic and cultural characteristic

II.D.2 Socioeconomic characteristic

II.D.3 Maternal characteristic

II.D.4 Infant food industry

II.E.Maternal Diet and Breast Milk 15

II.E.1 Maternal diet and breast milk volume.

II.E.2 Maternal diet and breast milk color.

II.E.3 Mother milk and maternal intake of protein.

II.E.4 Mother milk and maternal intake of fat.

II.E.5 Mother milk and maternal intake of carbohydrates.

II.E.6 Mother milk and maternal intake of vitamins.

II.E.7 Mother milk and maternal intake of minerals.

II.E.8 Mother milk and vegetarian diet.

II.E.9 Maternal diet and foods to avoid

II.E.10 Diabetes and breast feeding

II.F.Food Allergy 26

II.F.1 Definition of allergy

II.G.Food Hypersensitivity 28

II.G.1 IgE and food allergy

a-general character

b-genetic factor for IgE response

c-IgE and allergic disease

- d-determinant of IgE antibody response
- II.G.2 Food allergens
- II.G.3 Human milk allergy
- II.G.4 Cow's milk allergy
- II.G.5 B lactoglobulin allergy
- II.G.6 Egg allergy
- II.G.7 Chocolate
- II.G.8 Fish
- II.G.9 Peanuts
- II.G.10 Contaminants and additives

II.H. Clinical Manifestation of Food Allergy

40

- II.H.1 Gastrointestinal symptoms
 - a-vomiting
 - b-diarrhea
- II.H.2 Respiratory manifestation
 - a-rhinitis
 - b-bronchial asthma
- II.H.3 Colic
- II.H.4 Skin manifestation
 - a-chronic eczema in infancy
 - b-atopy and cow's milk
- II.H.5 Musculoskeletal manifestation
- II.H.6 Milk induced colitis
- II.H.7 Heiner syndrome
- II.H.8 Central nervous system manifestations
 - a- hyperkientic behavior
 - b-chronic fatigue
 - c-epilepsy
- II.H.9 Anaphylactic reaction
- II.H.10 Failure of thrive

II.I.Diagnosis of Breast Milk Allergy

51

- II.I.1 History of food allergy
- II.I.2 Diet dairy
- II.I.3 Food elimination
- II.I.4 Double blind method of diagnosis
- II.I.5 Food challenge
 - 6 Double blind placebo controlled food challenge (DBPCFE)
- II.I.7 Skin test
 - a-interdermal skin test
 - b-prick test
 - c-puncture test
- II.I.8 Differential diagnosis of food allergy
 - a-gastrointestinal tract disorders
 - b-enzyme deficiencies
 - c-cystic fibrosis
 - d-gastroenteritis
 - e-parasitic infection
 - f-psychological

II.J.Prevention

LIST OF TABLES

Table No.	Page
• Table (II.1): Comparison of the milk of healthy and malnourished mothers.....	16
• Table (II.2): Effect of maternal dietary supplementation with protein on the volume and protein content of breast milk and weight gained by baby.....	18
• Table (II.3): Effect of various carbohydrates diets on milk composition.....	20
• Table (II.4): Water-soluble vitamins in human milk.....	21
• Table (II.5): Fat soluble vitamins in human milk.....	22
• Table (II.6) Minerals in human milk.....	24
• Table (II.7): Vegetarianism and associated risks.....	25
• Table (II.8): Idealized strategy and mechanisms for prevention of allergic diseases in human.....	61
