Acknowledgment

First, thanks to ALLAH, who made me able to accomplish this work.

I would like to express my sincer gratitude and appreciation to professor. *Dr. Karima Ahmed Abd El khalek*, Professor. of pediatrics, Faculty Of Medicine, Ain Shams University, for her constant guidance and encouragement offered throughout this study.

I am gratefully acknowledging *Dr*. *Nawal Mahamoud Soliman*, Assistant Professor. of community and Environmental Health Nursing, High Institute Of Nursing, Ain Shams university, for her continuous advice, scrupulous supervision, and generous help during the various phases of the study.

I wish to express my appreciation and profound gratitude, for *Dr. wafaa El- Sayed Abd El- Gileel*, lecturer of Pediatric Nursing, High Institute of Nursing, Ain Shams university who devoted much of her time, effort, valuable advice, and unlimited help for the perfection of this work.

My sincerest thanks and warmth appreciation for children suffering from nephrotic syndrome and staff of pediatric nursing, for their help to accomplish the present study.

My special gratitude to my family members for their tolerance and sustained moral support especially my parent's .

LIST OF TABLES

tables:	page no.
Table (1):	(70)
	Number and percentage distribution of the nurses according to their Demographic characteristics.
Table (2):	(73)
	Number and percentage distribution of nurse s' knowledge regarding to (definition, incidence, types, and causes) of nephrotic syndrome.
Table (3):	(75)
	Number and percentage distribution of nurse s' knowledge about clinical manifestations and complications of nephrotic syndrome.
Table (4):	(77)
	Number and percentage distribution of nurse s' knowledge about diagnosis , investigation , treatment and methods of prevention of nephrotic syndrome.

.....(79) **Table (5):** Number and percentage distribution of nurse s' knowledge regarding to the nursing care for children suffering from nephrotic syndrome. (81) **Table (6):** Number and percentage distribution of nurse s'knowledge regarding to elements of health education for children suffering from nephrotic syndrome. (83)Table (7): Number and percentage distribution of nurse s in relation to their attitude towards care of the child suffering from nephrotic syndrome.(85) **Table (8):**

> Number and percentage distribution of nurse s' practice in relation to care of

children with nephrotic syndrome.

Table (9) :	(86)
	The relationship between nurse s' qualification and their knowledge about nephrotic syndrome.
Table (10) :	(88)
	The relationship between nurse singular care of sick children with nephrotic syndrome.
Table (11) :	(90)
	The relationship between nurse's qualification and nurse's knowledge regarding to elements of health education for sick children with nephrotic syndrome.
Table (12) :	(92)
	The relationship between nurse s' job and their knowledge about nephrotic syndrome.
Table (13):	(94)
	The relationship between nurse s' job and their knowledge regarding to nursing care of sick children with neutronic syndrome.

.....(96) Table (14): The relationship between nurse s' job and elements of their knowledge regarding health education for sick children with nephrotic syndrome.(98) Table (15): The relationship between nurse s'years of and their knowledge about experience nephrotic syndrome. (100)Table (16): The relationship between nurse s'years of experience and their knowledge regarding to the nursing care of sick children with nephrotic syndrome. (101) Table (17): The relationship between nurse s'years of experience and their knowledge regarding to elements of health education for sick

children with nephrotic syndrome.

Table (18) :	(102).
	The relationship between nurse's' qualification and their attitude towards sick children with nephrotic syndrome
Table (19):	(103)
	The relationship between nurse s' job and their attitude towards care of sick children with nephrotic syndrome.
Table (20) :	(104)
	The relationship between nurse s'years of experience and their attitude towards care of sick children with nephrotic syndrome.
Table (21):	(105)
	The relationship between nurse's' qualification and their practice in relation to nephrotic syndrome.
Table (22) :	(107)
	The relationship between nurse s' job and their practice in relation to nephrotic syndrome.
Table (23) :	(108)

The relationship between nurse s'years of experience and their practice in relation to nephrotic syndrome.

Table (24): (109)

The relationship between nurse's' knowledge and their practice in relation to nephrotic syndrome.

LIST OF FIGURES

Figures of the Review:

Figure (1):	Components of the nephrone . (7)	
Figure (2):	Location of cortical and Juxtamedullary nephrons and their blood supply .	
Figure (3):	Anatomy of the glomeruls . (10)	
Figure (4):	Infant with congenital nephrosis . (17)	
Figure (5):	Sequence of events in nephrotic syndrome . (20)	
Figure (6):	Schema for the pathogenesis of nephrotic syndrome.	
Figure (7):	Child with active nephrosis . (25)	
Figure (8):	Full- length view of the child.	
Figure (9):	The child shown after 1 month of corticosteroid therapy.	
Figures of the Results:		
Figure (1):	Distribution of the nurses according to their age in years.	
Figure (2):	Distribution of the nurses according to their qualification. (71)
