ACKNOWLEDGEMENT

First and foremost, I feel always indebted to Allah, The Most Beneficent and Merciful.

It was an honour and a fulfillment of an old wish to work under the supervision of eminent professors in the field of Hepato - gastroenterology who kindly suggested that I should prepare this Thesis. They lent me their whole - hearted support and immense facilities as is their usual attitude with their students. To them, I owe more than I can record.

I would like to express my sincere gratitude and appreciation to **Prof. Dr. Noman Haseeb**, Professor of Tropical Medicine, Faculty of Medicine, Ain Shams University, for giving me the chance to undertake the subject of this thesis. His constant encouragement, kind guidance, close supervision, precious suggestions and generous support throughout the whole work. It is a great honour to work under his guidance and supervision.

I am deeply grateful to **Prof. Dr. Mohamed Ali Madwar**, Professor and Head of Tropical Medicine Department, Ain Shams University, his patience, wise counsel and the rich knowledge he shared with me were a tremendous asset .

Professor Madwar inspired not only in me but in many generations of students a spirit of scientific research and a quest for ever-higher standards of achievement. To him therefore I express my deep sense of gratitude which he will always find everlasting.

Special thanks goes to **Prof. Dr. Saleh Mahmoud Saleh**, Professor and Head of Internal Medicine
