ACKNOWLEDGEMENTS

The writer like to express his sincere thanks to Prof. Dr. Ezzat Abd-Elshafi, Head of Geology Dept., Faculty of Science, Zagazig University for his supervision, critical comments during the progress of this work and reading the manuscript.

Sincere thanks and gratitude to Prof. Dr. Abdallah A. Abdel-Monem, Head of Research Division, Nuclear Materials Authority (NMA), Cairo and Prof. Dr. Ibrahim E. El Aassy, Head of the Sedimentary Radioactive Deposits Dept. (NMA) for their supervision, the facilities given during the progress of this work, critical discussions, and reviewing the manuscript.

I wish to express my deep appreciations to Dr. N.H. Botros, Dr. M. El Ahmady for their encouragement during the preparation of this work.

Particular thanks are due to Prof. Dr. M.Y. Attawiya and Dr. Hussein A. Hussein for the help in X-rays and radiometric analyses.

I would like to express my deep thanks to all members of Gabal Katherine Expedition for their sincere help during field work, namely H.Y. Sherif, A. Abdel Razik, N. El Agami, S. Kottob, M. Mansour, A. Shatta, A. Mouafi, I. Hassan, H. El Aassy, M. El Aassy, E. Hassanin, D. Awad and the driver G. Shawrib.

STATEMENT

The present thesis is submitted to the Geology Department, Faculty of Science, Zagazig University in partial fulfilment of the requirements for the Master Degree of Science (Geology). Beside the research work materialized in the thesis, the candidate has attended post graduate courses for one year in the following topics:

- | | |
|-------------------------------|-------------|
| 1. Field Geology. | Pass |
| 2. Sedimentary Rocks. | Pass |
| 3. Macro paleontology. | Pass |
| 4. Micro paleontology. | Pass |
| 5. Stratigraphy. | Good |
| 6. German Language. | Pass |

He has successfully the final examination of these courses.

Prof. Dr. Ezzat Abd-Elshafy

**Head of Geology Department,
Faculty of Science,
Zagazig University.**
