**COMPARATIVE STUDY ON THE EFFECT OF SMOKING
ON DEPOLARIZING AND NON-DEPOLARIZING
MUSCLE BLOCKADE UNDER ANESTHESIA**

**Thesis Submitted for Partial Fulfillment
of M.D. Degree in Anesthesiology**

BY

Sherif Samir Wahba

M.B.B.Ch., M.Sc., Anesthesia, Ain Shams University

Supervised By

Prof. Dr. Kadry Merhim Gergis

*Professor of Anesthesia and Intensive Care
Faculty of Medicine - Ain Shams University*

Prof. Dr. Mahmoud Mohamed Kamel

*Professor of Anesthesia and Intensive Care
Faculty of Medicine - Ain Shams University*

Prof. Dr. Alaa Eid Mohamed Hassan

*Assistant Professor of Anesthesia and Intensive Care
Faculty of Medicine - Ain Shams University*

Dr. Mervat Mohamed Marzouk

*Assistant Professor of Anesthesia and Intensive Care
Faculty of Medicine - Ain Shams University*

Acknowledgment

First of all, I thank **God** for enlightenment, knowledge and understanding that he grants us.

I would like to express my deepest gratitude to **Prof. Dr. Kadry Merhim Gergis**, Professor of Anesthesia and Intensive Care, Faculty of Medicine, Ain Shams University, for his care, concern and constant encouragement for me throughout this work. With his vast scientific knowledge and expertise he followed this work up till it came out to light.

I am greatly indebted to **Prof. Dr. Mahmoud Mohamed Kamel**, Professor of Anesthesia and Intensive Care, Faculty of Medicine, Ain Shams University, for his kind and patient supervision, his guidance and sincere advice; his care and concern really touched me.

I feel grateful to **Prof. Dr. Alaa Eid Mohamed Hassan**, Professor of Anesthesia and Intensive Care, Faculty of Medicine, Ain Shams University for his kindness, his guidance and enthusiasm with which he followed up this work.

Last but not least, I would like to express my deepest thanks to **Dr. Mervat Mohamed Marzouk**, Assistant Professor of Anesthesia and Intensive Care, Faculty of Medicine, Ain Shams University for her meticulous supervision and her valuable criticism, discussion, and suggestions.

Sherif Samir Wahba

List of Contents

	PAGE
Introduction	1 – 2
Review of Literature	2 - 66
Historical Perspective	2
Physiology of Neuromuscular Junction	3 - 7
Receptors	8 - 10
Drug Effects on Postjunctional Receptors	11 - 19
Pharmacology of Non-Depolarizing Muscle Relaxants	20 - 36
Pharmacology of Depolarizing Muscle Relaxants	37 - 43
Nicotine Pharmacology	44 - 46
Neuromuscular Monitoring	47 - 66
Aim of the Work	67
Patients and Methods	68 - 75
Results	76 - 124
Discussion	125 - 133
Conclusion	134
Summary	135 - 136
References	137 - 150
Arabic Summary	

List of Tables

No.	Table	Page
Table (1):	The metabolism and elimination of neuromuscular blocking drugs.	24
Table (2):	Pharmacodynamics of atracurium.	26
Table (3):	Pharmacokinetics of atracurium and laudanosine.	26
Table (4):	Pharmacodynamics of pancuronium.	29
Table (5):	Pharmacokinetics of pancuronium.	29
Table (6):	Pharmacodynamics of vecuronium.	32
Table (7):	Pharmacokinetics of vecuronium.	32
Table (8):	Pharmacodynamics of rocuronium.	35
Table (9):	Pharmacokinetics of rocuronium.	35
Table (10):	Pharmacodynamics of succinylcholine.	39
Table (11):	Relationship between dibucaine number and duration of succinylcholine neuromuscular blockade.	40
Table (12):	Clinical characteristics of a phase I and phase II neuromuscular blockade during succinylcholine infusion.	41
Table (13):	Advantages and disadvantages of different stimulation patterns.	59
Table (14):	The demographic data of patients in the five subgroups the age, sex and weight of the patients involved.	76

No.	Table	Page
Table (15):	The onset time (in seconds) in the first subgroup.	77
Table (16):	The duration of action (in minutes) in the first subgroup.	78
Table (17):	Consumption in the first hour (in $\mu\text{g/kg}$) in the first subgroup.	79
Table (18):	Recovery index (in seconds) in the first subgroup.	80
Table (19):	The heart rate (beat / minute) in the first subgroup.	81
Table (20):	Mean blood pressure (mmHg) changes in the first subgroup.	82
Table (21):	The onset time (in seconds) in the second subgroup.	83
Table (22):	The duration of action (in minutes) in the second subgroup.	84
Table (23):	Consumption in the first hour (in $\mu\text{g/kg}$) in the second subgroup.	85
Table (24):	Recovery index (in seconds) in the second subgroup.	86
Table (25):	The heart rate (beat / minute) in the second subgroup.	87
Table (26):	Mean blood pressure (mmHg) changes in the second subgroup.	88
Table (27):	The onset time (in seconds) in the third subgroup.	89
Table (28):	The duration of action (in minutes) in the third subgroup.	90
Table (29):	Consumption in the first hour (in $\mu\text{g/kg}$) in the third subgroup.	91

No.	Table	Page
Table (30):	Recovery index (in seconds) in the third subgroup.	92
Table (31):	The heart rate (beat / minute) in the third subgroup.	93
Table (32):	Mean blood pressure (mmHg) changes in the third subgroup.	94
Table (33):	The onset time (in seconds) in the fourth subgroup.	95
Table (34):	The duration of action (in minutes) in the fourth subgroup.	96
Table (35):	Consumption in the first hour (in $\mu\text{g/kg}$) in the fourth subgroup.	97
Table (36):	Recovery index (in seconds) in the fourth subgroup.	98
Table (37):	The heart rate (beat / minute) in the fourth subgroup.	99
Table (38):	Mean blood pressure (mmHg) changes in the fourth subgroup.	100
Table (39):	The onset time (in seconds) in the fifth subgroup.	101
Table (40):	The duration of action (in minutes) in the fifth subgroup.	102
Table (41):	Recovery index (in seconds) in the fifth subgroup.	103
Table (42):	The heart rate (beat / minute) in the fifth subgroup.	104
Table (43):	Mean blood pressure (mmHg) changes in the fifth subgroup.	105
