ABBREVIATIONS

AR	Actinic reticuloid
CTCL	Cutaneous T-cell lymphoma
ISH	In situ hybridization
LPP	Large plaque parapsoriasis
LYP	Lymphomatoid papulosis
MF	Mycosis fungoides
PCR	Polymerase chain reaction
PLEVA	Pityriasis lichenoides et varioliform acuta
PVA	Poikiloderma vasculare atrophicans
SS	Sézary syndrome
TCRGR	T-cell receptor gene rearrangement

ACKNOWLEDGEMENT

First and foremost I feel always indebted to ALLAH, the most kind and the most merciful.

I wish to offer my sincere thanks and gratitude to Prof. Dr. Mostafa Mokhtar Kamel, Professor of Dermatology and Venereology, Faculty of Medicine, Ain Shams University, for his experienced supervision, persistent effort, continuous guidance and valuable help throughout the present work.

I want also to express my sincere gratitude to Dr. Maha Abou El-Magd, Assistant Professor of Dermatology and Venereology, Faculty of Medicine, Ain-Shams University, for her valuable assistance and instructions which were of much help in this work.

CONTENTS OF TABLE

<i>No.</i>		<i>Page</i>
1	Rational panel of antibodies for immunohistochemical diagnosis of cutaneous lymphoid infiltration routinely-fixed, paraffin embedded tissue section	65
2	Panel of antibodies for the diagnosis of cutaneous undifferentiated tumours... ..	67

CONTENTS

	<i>Page</i>
I INTRODUCTION AND AIM OF THE WORK...	1
II CLINICAL PRESENTATIONS OF PREMYCOTIC ERUPTION... ..	5
III HISTOPATHOLOGY OF PREMYCOTIC LESIONS	19
IV DETECTION OF EARLY TRANSFORMATION OF PREMYCOTICS TO MYCOSIS FUNGOIDES...	29
V DETECTION OF EARLY CASES OF MYCOSIS FUNGOIDES.. ..	49
VI SUMMARY AND CONCLUSION.	85
VII REFERENCES.	91
VIII ARABIC SUMMARY.	--
