

# Renal Scintigraphy After Cure of Common Childhood Abdominal Malignancies

Thesis  
Submitted for partial fulfilment of  
Master Degree of Paediatrics  
By

*Amany Sobhy Sayed*

M.B. B.Ch.

Supervisors  
Prof. Dr.

*Mohsen Saleh El-Alfy*

Professor of Paediatrics

Faculty of Medicine, Ain Shams University  
Dr.

*Omar Mohamed El-Tannir*

Assist. Professor of Paediatric Oncology  
National Cancer Institute, Cairo University  
Dr.

*Sahar Mohamed Ahmed Hassanein*

Lecturer of Paediatrics  
Faculty of Medicine, Ain Shams University

قَالُوا

سُبْحَنَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا  
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صَدَقَ اللَّهُ الْعَلِيمُ

الآيَةُ (٢٤) سُورَةُ الْبَقَرَةِ

## *Acknowledgment*

*I wish to express my sincere gratitude to Prof. Dr. Mohsen Saleh El-Alfy, Professor of Paediatrics, Ain Shams University, for his great care, constructive supervision and advice throughout this work.*

*I am greatly indebted to Prof. Dr. Omar Mohamed El-Tannir, Asstst. Professor of Paediatric Oncology, National Cancer Institute, Cairo University, who offered me a lot of his valuable advice.*

*To Dr. Sahar Mohamed Hassanein, Lecturer of Paediatrics, Ain Shams University, I owe much respect and gratitude for her help.*

*To Dr. Hamed Ibrahim Farag, Asstst. Professor of Biophysics, National Cancer Institute, Cairo University, I am deeply thankful for his help.*

# CONTENTS

	<i>Page</i>
INTRODUCTION .....	<i>vii</i>
AIM OF THE WORK .....	<i>viii</i>
REVIEW OF LITERATURE .....	
Wilms' Tumour .....	1
Non-Hodgkin's Lymphoma .....	13
Neuroblastoma .....	22
Rhabdomyosarcoma .....	33
Renal Anatomy and Physiology .....	43
Renal Scintigraphy .....	46
Nephrotoxic Drugs .....	59
Nephrotoxic Effects of Irradiation .....	63
SUBJECTS & METHODS .....	66
R E S U L T S .....	72
DISCUSSION .....	97
SUMMARY & CONCLUSION .....	106
RECOMMENDATIONS .....	108
REFERENCES .....	109
ARABIC SUMMARY .....	

## LIST OF TABLES

	<i>Page</i>
Table (1): The Kiel classification of NIIL .....	15
Table (2): TNM classification of neuroblastoma .....	29
Table (3): The data of patients group .....	67
Table (4): Clinical data and therapy of patients with Wilms' tumour ...	72
Table (5): Laboratory data of patients with Wilms tumour .....	73
Table (6): Clinical data and therapy of patients with non Hodgkin's lymphoma .. .....	74
Table (7): Laboratory data of patients with non Hodgkin's lymphoma	75
Table (8): Clinical data and therapy of patients with neuroblastoma ...	76
Table (9): Laboratory data of patients with neuroblastoma .....	77
Table (10): Clinical data and therapy of patients with rhabdomyosarcoma .....	78
Table (11): Laboratory data of patients with rhabdomyosarcoma .....	79
Table (12): Comparison between 4 groups of patients as regards mean Hb, MCV, MCH, before and after treatment .....	80
Table (13): Comparison between 4 groups of patients as regards mean urea (mg/ dl) and mean creatinine (mg/ dl) before and after treatment ... .....	82
Table (14): Renal size by ultrasound .....	86
Table (15): Comparison between Wilms' tumour and NHL patients as regards mean GFR (ml/min) before treatment .....	87

## LIST OF TABLES (CONT.)

	<i>Page</i>
Table (16): Comparison between Wilms' tumour and neuroblastoma patients as regards mean GFR (ml/min) before treatment .....	87
Table (17): Comparison between Wilms' tumour and RMS patients as regards mean GFR (ml/min) before treatment .....	88
Table (18): Comparison between Wilms' tumour and NHL patients as regards mean GFR (ml/min) after treatment .....	88
Table (19): Comparison between Wilms' tumour and neuroblastoma patients as regards mean GFR (ml/min) after treatment .....	89
Table (20): Comparison between Wilms' tumour and RMS patients as regards mean GFR (ml/min) after treatment .....	89
Table (21): Comparison between 4 groups of patients as regards mean GFR (ml/min) before and after treatment .....	90
Table (22): Comparison between 2 groups of patients: (patients underwent unilateral nephrectomy and patients had no surgery) as regards mean GFR (ml/min): .....	94
Table (23): Comparison between 2 groups of patients: (patients had abdominal irradiation and patients had no irradiation) as regards mean GFR (ml/min) .....	95
Table (24): Comparison between 2 groups of patients: (patients received single nephrotoxic drug and patients received more than one nephrotoxic drug) as regards mean GFR (ml/min) .....	96

## LIST OF FIGURES

	<i>Page</i>
Fig. (1): The kidney cut longitudinally to show the internal structure ..	43
Fig. (2): Renal plasma flow .....	45
Fig. (3): Phases of a renogram .....	52
Fig. (4): Mean blood urea in the different groups under study before and after treatment .....	83
Fig. (5): Mean blood creatinine in the different groups under study before and after treatment .....	84
Fig. (6): Correlation between creatinine and mean GFR before treatment ... ..	92
Fig. (7): Correlation between creatinine and mean GFR after treatment	93

## **LIST OF ABBREVIATIONS**

---

Ara C	Arabinoside
BUN	Blood Urea Nitrogen
CAT	Computerized Axial Tomography
Cis DDP	Cis Diamine Dichloroplatinum
COPP	Cyclofosfamide, Oncovine, Prednisone ,
DMSA	Dimercaptosuccinic Acid
DTPA	Diethylene Thiamine Penta-Acetic Acid
FH	Favourable Histology
GFR	Glomerular Filtration Rate
GH	Glucoheptonate
I-MIBG	Iodine- Meta, Iodo-Benzyl-Guanidine
IVP	Intravenous Pyelography
MAG3	Mercaptyl-Acetyl-triglycine
MESNA	Mercapto ethane sulfonate
MRI	Magnetic Resonance Imaging
Na I	Sodium Iodide
NB	Neuroblastoma
NHL	Non-Hodgkin's Lymphoma
NWF	New Working Formulation
NWTS	National Wilms' Tumour Study
OIH	Ortho-iodohippurate
PAH	Para-Amino-Hippuric

## **LIST OF ABBREVIATIONS (CONT.)**

---

PMT	Photomultiplier Tube
RMS	Rhabdomyosarcoma
ROI	Region of Interest
SIOP	International Society of Paediatrics
SR	Survival Rate
Tc-99m	Technetium99m
TNM	Tumour-Node-Metastasis
