ACKNOWLEDGMENT

First and foremost, I humbly acknowledge 'ALLAH', the most merciful. To his graciousness I pay my tribute.

I'd like to express by sincere thanks to **PROF. DR. ISMAIL ABDEL SALEEM RADWAN**, Prof. of General Surgery in the Faculty of Medicine, Ain Shams University for his painstaking revision of this work and for being a great backup all through.

Also, my deep thanks are due to **DR. GAMAL ABDEL RASMAN EL-MOWALLEED**, Lecturer of General Surgery in the Faculty of Medicine, Ain Shams University, this work would have been otherwise. He devoted a lot of his time and effort to suggesting ideas, reading the manuscripts and helping me in the practical work up.

To the staff members and my sincere colleagues in Unit 7 (General Surgery), in El-Demerdash University Hospital for their support and good stand, I wish them all the best of luck.

List of Tables

Table (1): Serum calcium, phosphate, alkaline phosphatase and PTH in primary and secondary HPT.

Table (2): Biochemical indices in HPT.

Table (3): Diagnostic rate of hyperparathyroid pathology in group I.

Table (4): Bone manifestations in group I.

Table (5): Diagnostic rate of hyperparathyroid pathology in group II.

Table (6): Bone manifestations in group II.

Table (7): Articular changes in group I.

Table (8): Articular changes in group II.

Table (9): Bone scan appearance in group I.

Table (10): Bone scan appearance in group II.

Table (11): Postoperative paraffin section in both groups.

List of Figures

- Fig. (1):** Development of the parathyroid gland.
- Fig. (2):** Decent of the lower parathyroid.
- Fig. (3):** Different shapes of parathyroid glands and frequencies.
- Fig. (4):** Location of the upper parathyroid glands.
- Fig. (5):** Location of the lower parathyroid glands.
- Fig. (6):** The precursors and cleavage products of PTH.
- Fig. (7):** Chief cell hyperplasia.
- Fig. (8):** Parathyroid adenoma.
- Fig. (9):** CT neck.
- Fig. (10):** U/S neck.
- Fig. (11):** Thallium -201/ Technitium-99m subtraction scintigraphy.
- Fig. (12):** Steps of parathyroidectomy.
- Fig. (12a):* Position and skin incision.
- Fig. (12b):* The strap muscles are clamped and divided on both sides.
- Fig. (12c):* Mobilization of the thyroid gland.
- Fig. (12d):* The landmark is the recurrent laryngeal nerve.
- Fig. (12e):* Left upper parathyroid gland.
- Fig. (13):** Parathyroid gland, cut.
- Fig. (14):** Upper parathyroid gland stained by methylene blue.
- Fig. (15):** Superiosteal bone resorption at the terminal phalanges.
- Fig. (16):** Brown tumor of the lower end of femur.
- Fig. (17):** Chondrocalcinosis of knee joint.

LIST OF ABBREVIATIONS

C.T.	Computerized axial tomography
E.C.F.	Extra cellular fluid
F.P.	Faulse positive
F.N.	Faulse negative
G.F.R.	Glomerular filtration rate
HPT	Hyperparathyroidism
I.V.	Intravenous
M.B.D.	Metabolic bone disease
PHPT	Primary hyperparathyroidism
PTH	Parathyroid hormone
T.P.	True positive
T.N.	True negative
SHPT	Secondary hyperparathyroidism
U.S	Ultrasound
Ti/Tc	Thallium 201/ Technitium 99m subtraction scintigraphy.

INTRODUCTION AND AIM OF THE WORK
