*THE SPIRIT OF MY
GREAT TEACHER*

*PROFESSOR DR.
MAHMOUD ESSAWAY*

*WHOM I'LL REMEMBER
FOR EVER*

ACKNOWLEDGEMENT

I would like to express my gratitude and thanks to *Prof. Dr. Zeinab Beshry*, Professor of Psychiatri, Faculty of Medicine, Ain Shams University, for her help, encouragement and continuous guidance throughout the conduction of this work.

I am also grateful to *Prof. Dr. Aida Abdel Azim*, Professor of Clinical Pathology, Faculty of Medicine, Ain Shams University, for her expert help, advice and tireless effort throughout the period of this study.

My deep gratitude and appreciation to *Prof. Dr. Gahila M. Mokhtar*, Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for devoting all her effort and time for helping in performing this work.

Finally, Special thanks must go to the children and their parents who served as subjects in this study.

LIST OF ABBREVIATIONS

ANA	Antinuclear antibody
APLS	Antiphospholipid antibody syndrome
CNS	Central nervous system
CRP	C-reactive protein
DFX	Desferrioxamine
DMARDs	Disease modifying antirheumatic drugs
DNA	Deoxyribonucleic acid
ESR	Erythrocyte sedimentation rate
F	Female
HLA	Human leucocyte antigen
HSM	Hepatosplenomegaly
IgA	Immunoglobulin A
IgG	Immunoglobulin G
JEPI	Junior Eysenck personality inventory
JRA	Juvenile rheumatoid arthritis
M	Male
MCNS	Minimal change nephrotic syndrome
MGN	Membranous glomerulonephritis
MPGN	Mesangioproliferative glomerulonephritis
MRI	Magnetic resonance imaging
NS	Nephrotic syndrome
NSAIDs	Non steroidal anti-inflammatory drugs
RA	Rheumatic arthritis
RF	Rheumatoid factor
SCLE	Subacute cutaneous lupus erythematosus
SLE	Systemic lupus erythematosus
SPECT	Single photon emission computed tomography

LIST OF TABLES

Table	Title	Page
1	The classification of nephrotic syndrome	39
2	History taking of patients with JRA	71
3	Clinical examination of patients with JRA	72
4	Laboratory findings of patients with JRA	73
5	Results of psychiatric interview sheet in JRA patients	74
6	Results of IQ assessment in JRA patients	75
7	Relation between the type of the disease and IQ of patients with JRA	75
8	Results of junior EPI assessment of JRA patients and personality character	76
9	Assessment of JRA patients as regards severity of illness and personality changes	77
10	Assessment of JRA patients as regards duration of illness and personality changes	77
11	Relation between types of the disease and personality changes in patients with JRA	78
12	Relation between sex and personality changes in patients with JRA	78
13	Personality and behavioral troubles by EPI	79
14	Destructive fantasies by EPI	79
15	Digestive system troubles by EPI	80
16	Disturbed thought process by EPI	80
17	School problems by EPI	80
18	Sleep troubles by EPI	81
19	Urinary system troubles by EPI	81
20	Abnormal habitual manipulation of the body by EPI	81
21	Abnormal gait by EPI	82
22	History taking of patients with SLE	84
23	Clinical examination of patients with SLE	85

24	Laboratory investigations of patients with SLE	86
25	Results of psychiatric interview sheet in patients with SLE	88
26	Results of IQ assessment in SLE patients	88
27	Results of junior EPI assessment of SLE patients	89
28	Relation between system affected in patients with SLE and their personality profile	90
29	SLE as regards sex and personality character	90
30	Personality and behavioral troubles by EPI	91
31	Disturbed thought process by EPI	91
32	School problems by EPI	92
33	Destructive fantasies by EPI	92
34	Sleep troubles by EPI	92
35	Digestive system problems by EPI	93
36	Urinary system troubles by EPI	93
37	Abnormal gait by EPI	93
38	Abnormal habitual manipulation of the body by EPI	94
39	Clinical examination of patients with NS	96
40	Results of laboratory investigation of patients with NS	96
41	Results of psychiatric interview sheet in NS patients	98
42	Results of IQ assessment in patients with NS	98
43	Results of junior EPI assessment of NS patients	99
44	Evaluation of the type of NS and personality changes	100
45	Evaluation of the response to treatment of patients with NS and their personality changes	100
46	% of personality changes in NS patients according to sex	100
47	Personality and behavioral troubles by EPI	101
48	School problems by EPI	101
49	Urinary system troubles by EPI	101
50	Digestive system troubles by EPI	102
51	Disturbed thought process by EPI	102
52	Sleep troubles by EPI	102
53	Abnormal habitual manipulation of the body by EPI	103
54	Abnormal gait by EPI	103

55	Destructive fantasies by EPI	103
56	History taking of patients with rheumatic chorea	105
57	Laboratory investigations of patients with rheumatic chorea	106
58	Results of psychiatric interview for patients with rheumatic chorea	107
59	Results of IQ assessment in rheumatic chorea patients	108
60	Results of junior EPI assessment of rheumatic chorea patients	108
61	Comparison between 4 groups of patients as regards psychiatric interview	110
62	Comparison between 4 groups of patients as regards IQ assessment	121
63	Comparison between 4 groups of patients as regards EPI assessment	122

LIST OF FIGURES

Fig. No.	Title	Page
1	Comparison between 4 groups of patients as regards digestive system problems	111
2	Comparison between 4 groups of patients as regards urinary system problems	112
3	Comparison between 4 groups of patients as regards sleep troubles	113
4	Comparison between 4 groups of patients as regards abnormal gait	114
5	Comparison between 4 groups of patients as regards disturbed thought process	115
6	Comparison between 4 groups of patients as regards personality and behavioral disturbances	116
7	Comparison between 4 groups of patients as regards destructive behavior	117
8	Comparison between 4 groups of patients as regards abnormal habitual manipulation of the body	118
9	Comparison between 4 groups of patients as regards school problems	119
10	Comparison between 4 groups of patients as regards speech difficulties	120
11	Comparison between 4 groups of patients as regards neuroticism	123
12	Comparison between 4 groups of patients as regards psychoticism	124
13	Comparison between 4 groups of patients as regards extraversion	

Introduction
