Acknowledgement

First Thanks to God

I would like to express my deep gratitude to Prof. Dr. Mona Abd El-Kader Salem professor of pediatrics, Faculty of Medicine, Ain Shams University for her sincere help and continuous supervision, and encouragement. Her help and support were the main factors that helped in completion of this work.

I would like also to express my deep thanks to Dr. Manal Hamdy El-Sayed lecturer of pediatrics, Faculty of Medicine, Ain Shams University for her continuous and meticulous supervision and for being so generous with time and effort throughout this work.

I also, appreciate so much the sincere help of Dr. Nashwa Ahmed Adel El-Badawi, Assistant professor of clinical pathology Faculty of Medicine, Ain Shams University for her help and support that were behind completing this work.

I would also, like to thank all patients who shared in this work for their cooperation.

Tamer Adham

List of Abbreviation

ADA	American Diabetes Association
BMI	Body Mass Index
C-peptide	Connecting peptide
DBP	Diastolic Blood Pressure
DCCT	Diabetes Control and Complications Group
DM	Diabetes Mellitus
EDTA	Ethylene Diamine Tetra-acetate
HbA ₁	Glycosylated hemoglobin
HLA	Human Leucocytic Antigen
IDDM	Insulin Dependent Diabetes Mellitus
LDL	Low Density Lipoprotein
NIDDM	Non Insulin Dependent Diabetes Mellitus
NDDG	National Diabetes Data Group
NVD	Neovascularization of the Disc
NVE	Neovascularization of the Retina Elsewhere
SBP	Systolic Blood Pressure
Scr	Serum Creatinine
UAER	Urinary Albumin Excretion Rate

List of Figures

<i>Figure</i>	<i>Subject</i>	<i>Page</i>
Figure 1	Structure of human insulin	17
Figure 2	Biosynthesis of insulin	23
Figure 3	Blood pressure and albumin excretion in IDDM	35
Figure 4	DAKO C-peptide assay principle	45
Figure 5	C-peptide levels	69
Figure 6	Correlation between duration of diabetes and C-peptide level	70
Figure 7	Incidence of microangiopathy	71
Figure 8	Incidence of nephropathy	72
Figure 9	Incidence of retinopathy	73
Figure 10	Mean C-peptide levels in diabetics with and without nephropathy	74
Figure 11	Mean C-peptide levels in diabetics with and without retinopathy	75
Figure 12	Control of diabetes	76
Figure 13	Mean glycosylated hemoglobin levels in diabetics with and without nephropathy	77
Figure 14	Mean glycosylated hemoglobin levels in diabetics with and without retinopathy	78
Figure 15	Correlation between weight and C-peptide level	79
Figure 16	Correlation between height and C-peptide level	80
Figure 17	Correlation between BMI and C-peptide level	81
