

**CORD ARTERIAL BLOOD PH, LEUCOCYTIC
AND ERYTHROBLASTIC COUNT AS
INDICES OF FETAL HYPOXIA**

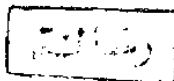

Thesis

Submitted in Partial Fulfillment of the
Master Degree in Pediatrics

Acknowledgement

I Wish to express my sincere gratitude to ***professor Omar Mahmoud Helmy***: Professor of pediatrics, Faculty of Medicine, Ain Shams University, for his great care, continuous everlasting encouragement, constructive supervision and advice throughout this work.

I am greatly indebted to ***Dr. Mohamed Nasr El Din El Barbary***, Lecturer in Pediatrics, faculty of Medicine, Ain Shams University, for his support, indispensable guidance, generous help and tedious effort in revising the details of the whole work.

I do feel indebted to ***Dr. Azza Saddek El Danasoury***, Lecturer of Haematology, Faculty of Medicine, Ain Shams University, who devoted much of her time to give me great help and endless encouragement.

Lastly, I am deeply thankful to every person who helped me while performing this work.

Hala

Contents

	Page
Introduction	I
Aim of the work	III
Review of literature	
Definition and incidence.....	1
Pathophysiology and etiology.....	2
Effects of asphyxia on body systems.....	6
Diagnosis of birth asphyxia.....	22
Maternal regulation of acid-base equilibrium.....	39
Fetal regulation of acid-base equilibrium.....	44
Measurement of fetal acid-base status.....	46
Erythroblastic count and fetal hypoxia.....	50
Blood leucocyte count in the human fetus.....	60
Subjects and methods	63
Results	66
Discussion	74
Summary and conclusion	80
Recommendations	83
References	84
Arabic summary	

Tables

	Page
Table (1) Conditions that predispose the fetus and newborn to asphyxia.	3
Table (2) Biophysical profile scoring	27
Table (3) Factors affecting the APGAR score	35
Table (4) Comparison between E.C.S. and EM.C.S.	66
Table (5) Comparison between E.C.S. and N.V.D.	67
Table (6) Comparison between EM.C.S. and N.V.D.	67
Table (7) Comparison between E.C.S. and control group	68
Table (8) Comparison between EM.C.S. and control group	69
Table (9) Comparison between N.V.D. and control group	70
Table (10) Comparison between C.S. group and NVD	71

Figures
