

SPOTLIGHTS ON TROPONINS T AND I

ESSAY

Submitted for Partial Fulfillment of the Master
Degree in Clinical and Chemical Pathology
By

Hanan Reda Eskander
M.B.B.CH

Under supervision of

Prof. Hany Sobhy Rufail

Professor of Clinical and Chemical Pathology
Ain Shams University

Dr. Ola Hamdy El-Demerdash

Assistant Professor of Clinical and Chemical
Pathology
Ain Shams University

Dr. Ghada Mohamed Sabour

Lecturer of Clinical and Chemical Pathology
Ain Shams University

Faculty of Medicine
Ain Shams University
1999

Acknowledgement

Thanks to God who granted me the power to accomplish this work.

My deepest gratitude and sincere appreciation to prof. Dr. Hany Sobhy Rifaat, Prof. of Clinical and Chemical Pathology, Ain Shams University, for his indispensable guidance and advice. I really had the honour of having his supervise this work.

Heartily thanks to Dr. Ola Hamdy El-Demerdash, Assist.Prof. of Clinical and Chemical Pathology, Ain Shams University, for her meticulous supervision, her valuable instructions and for offering me much of her time and effort.

Many thanks to Dr. Ghada Mohamed Sabour, Lecturer of Clinical and Chemical Pathology, Ain Shams University, for her great support, kind advice and valuable suggestions.

(i) Myoglobin.....	27
(ii) Myosin Fragments.....	30
(iii) Heart Fatty Acid Binding Protein.....	32
(iv) Enolase.....	33
(v) Glycogen phosphorylase BB.....	34
II. TROPONINS	37
A. Introduction to Troponins.....	37
1. Chemical Structure and Physiological Role.....	37
2. Troponin Isoforms.....	39
3. Tissue Distribution.....	40
B. Cardiac Troponin T.....	41
1. CTnT in Acute Myocardial Infarction.....	41
a) Release Kinetics in AMI	42
b) Diagnostic sensitivity of CTnT in AMI.....	42
2. CTnT in Unstable Angina	42
3. Cardiospecificity of CTnT.....	43
a) Cardiac Troponin T in sepsis.....	43
b) Cardiac Troponin T in muscle disease.....	44
(i) CTnT in Duchenne muscular dystrophy.....	44
(ii) CTnT in Polymyositis / Dermatomyositis.....	45
(iii) CTnT in Rhabdomyolosis.....	46
c) Cardiac Troponin T after exercise.....	47
d) Cardiac Troponin T in Renal disease.....	47
4. Cardiac Troponin T in Perioperative MI.....	48
5. Role of CTnT in Monitoring Reperfusion Therapy.....	50
6. Troponin T as a Non- Invasive Marker of Cardiac	

Allograft Rejection	51
7. Methods of Assay of Cardiac Troponin T	52
8. Reference Range	55
C. Cardiac Troponin I	55
1. CTnI in Acute Myocardial Infarction	55
a. Release Kinetics in AMI	55
b) Diagnostic sensitivity of CTnI in AMI	56
2. CTnI in Unstable Angina	56
3. Cardiospecificity of CTnI	57
4. Cardiac Troponin I in Perioperative MI	58
5. Role of CTnI in Monitoring Reperfusion Therapy	59
6. Cardiac Troponin I in Congestive Heart Failure	60
7. Methods of Assay of Cardiac Troponin I	61
8. Reference Range	67
Summary	70
Conclusions and Recommendations	74
References	75
Arabic summary	I

LIST OF ABBREVIATIONS

AMI:	Acute myocardial infarction.
AMP:	Adenosine monophosphate.
AST:	Aspartate aminotransferase.
ATP:	Adenosine triphosphate.
CA III:	Carbonic anhydrase III.
CCU:	Coronary Care Unit.
CK:	Creatine Kinase.
Cr-P:	Creatine phosphate.
CTnI:	Cardiac troponin I.
CTnT:	Cardiac troponin T.
DMD:	Duchenne muscular dystrophy.
ECG:	Electrocardiogram.
EIA:	Enzyme immunoassay.
ELISA:	Enzyme-Linked immunosorbent assay.
FABP:	Fatty acid binding protein.
FEIA:	Fluorometric Enzyme Immuno assay.
GPBB:	Glycogen phosphorylase BB isoenzyme.
ICU:	Intensive Care Unit.
IEMA:	Immunoenzymometric assay.
LD:	Lactate dehydrogenase.
MEIA:	Microparticle Enzyme Immuno assay.
MHC:	Myosine heavy chains.
MI:	Myocardial infarction.
MLC:	Myosin light chains.
RIA:	Radio Immuno Assay.
Tn C:	Troponin C.
WHO:	World Health Organization.

4782

LIST OF TABLES

Table (1)	<i>Molecular markers used or proposed for use in the diagnosis of AMI</i>	10
Table (2)	<i>Diagnostic performance of immunoassays used for quantitative determination of CTnI.....</i>	69

LIST OF FIGURES

Figure (1)	<i>Structures of the Troponin complex...</i>	38
Figure (2)	<i>Peak values of CTnT and CTnI in severe rhabdomyolysis.....</i>	47
Figure (3)	<i>CTnT concentrations in relation to the outcome in perioperative MI.....</i>	50
Figure (4)	<i>Testing principle of CTnT ELIZA.....</i>	53
Figure (5)	<i>CTnI mass in patients with and without perioperative MI.....</i>	59
Figure (6)	<i>Opus Fluorogenic ELIZA test for CTnI.....</i>	65
