ACKNOWLEDGMENT

I am deeply grateful to Prof. Dr. Mohsen Abd El-Hameed Gadallah Professor of Community, Environmental and Occupational Medicine, Faculty of Medicine Ein Shams University for his enthusiastic guidance and supervision.

I am extremely indebted and have been most fortunate to have the outstanding advice and supervision of Prof. Dr. Wagida Abdel Rahman Anwar Professor of Community, Environmental and Occupational Medicine, Faculty of Medicine, Ein Shams University.

My profound thanks to Prof. Dr. Samia Aly El-Temtamy Professor of Human Genetics. Human Genetic Department. National Research Center. She spent much of her precious time and her enlightening remarks. I wish to express my infinite gratitude for her honest assistance, encouragement and meticulous suggestions. Working under her supervision has been a great privilege.

My profound thanks go to Dr. Eman Hassan Anwar Abo El-Ezz, Professor of Human Genetics, Human Genetic Department National Research Center. Her assistance and encouragement were unlimited in all stages of this work.

I would also like to express my deep gratitude to Professor Dr. Moushira Erfan Proffesor of Bio-statistical Genetics, National Research Center, Cairo for her valuble help and constant cooperation. Words can not express my feeling towards her.

I would like to express my deepest respect and gratitude to all my colleagues who have been so kind with me.
