*Prof. Dr. Mostafa Elhilali, MD.,*  
Ph.D., FRCS(C)  
Professor of Urology,  
Chief of Urology division,  
McGill University, Montreal, Canada

*Prof. Dr. Mohamed Hatem Elbialy,*  
MD.  
Professor of Urology,  
Chief of Urology department,  
Ain Shams University, Cairo, Egypt.

*Prof. Dr. Magdy Hassouna, MD.,*  
Ph.D., FRCS(C)  
Associate Professor of Urology,  
University of Toronto,  
Toronto, Canada.

*Dr. Mohamed Sherif Mourad, MD.*  
Lecturer of Urology,  
Ain Shams University, Cairo, Egypt.

## **ACKNOWLEDGMENT**

*To those who have been responsible for my training in Neurourology:*

*Dr. Mostafa Elhilali, who guided me in all the basic research work in this thesis, challenged me to come up with new concepts in neurourology, and made my research fellowship in McGill University possible.*

*Dr. Magdy Hassouna, who is responsible for my professional training in Neurourology, stimulated me to head beyond the current knowledge and made my clinical fellowship in University of Toronto a unique experience*

*Dr. Hatem Elbialy, who encouraged me throughout my thesis. If it were not for him, my scholarship would have not been possible.*

*Dr. Sherif Mourad, who has been a real friend.*

To

My parents, who supported me unconditionally.

My wife and children, who bear a lot during some very difficult times throughout my career and to whom I owe most of my success in this work.
