قَالُوا

سُبْحَنَكَ لَا عِلْمَ لَنَا إِلَّا بِمَا غَلَمْتَنَا  
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صَدَقَ اللَّهُ الْعَلِيمُ

الآيَةُ (٢٢) سُورَةُ الْبَقَرَةِ

## Acknowledgment

I wish to express my sincerest gratitude to Prof. Dr. Hamed Mahmoud Shatla, Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for planning guidance and meticulous supervision of every part of this work.

I would like to express my deepest appreciation to Dr. Elham Abbas El-Zayyat, Assist. Professor of Parasitology, Faculty of Medicine, Ain Shams University, for her valuable advice and continuous encouragement.

I feel deeply thankful to Dr. Hayam Kamal Nazif, Lecturer in the Institute of Postgraduate Childhood Studies, Ain Shams University, for her sincere help and supervision throughout this work.

## LIST OF ABBREVIATIONS

ALT	Alanine transaminase
AST	Aspartate transaminase
CBC	Complete blood count
CFT	Complement fixation test
CIEP	Counter immuno-electrophoresis
EITB	Enzyme linked immuno-electro-transfer blot
ELISA	Enzyme linked immunosorbent assay
ESR	Erythrocyte sedimentation rate
F. hepatica	Fasciola hepatica
F. gigantica	Fasciola gigantica
Fasciola spp.	Fasciola hepatica and Fasciola gigantica
FAST-ELISA	Falcon assay screening test - Enzyme linked immuno electro transfer blot
IF	Immuno-fluorescence
IHAT	Indirect haemagglutination test
SGOT	Serum glutamic oxalo-acetic-transaminase
SGPT	Serum glutamic pyruvic-transaminase
WHO	World Health Organization

# CONTENTS

	<i>Page</i>
INTRODUCTION .....	1
AIM OF THE WORK .....	3
REVIEW OF LITERATURE .....	
Fascioliasis (Sheep liver fluke disease) .....	4
Epidemiology .....	10
Human Fascioliasis in Egypt .....	11
Pathology and Pathogenesis .....	13
Clinical manifestations .....	15
Laboratory diagnosis .....	19
Treatment and Prevention of Fascioliasis .....	26
SUBJECTS & METHODS .....	33
R E S U L T S ... ..	43
DISCUSSION ... ..	77
RECOMMENDATIONS .....	84
SUMMARY & CONCLUSION .....	85

APPENDIX ... ..	
ARABIC SUMMARY .....	

## LIST OF TABLES

	<i>Page</i>
Table (1a): Clinical results of Group I (Eosinophilia + hepatomegaly) (n=17) .....	46
Table (1b): Laboratory results of Group I (Eosinophilia + hepatomegaly) (n=17) .....	47
Table (2a): Clinical results of Group II (Hepatomegaly with normal eosinophilic count) (n=18) .....	48
Table (2b): Laboratory results of Group II (Hepatomegaly with normal eosinophilic count) (n=18) .....	49
Table (3a): Clinical results of Group III (Eosinophilia without hepatomegaly) (n=20) .....	50
Table (3b): Laboratory results of Group III (Eosinophilia without hepatomegaly) (n=20) .....	51
Table (4): Results of Group IV (Control) (n=20) .....	52
Table (5): Sex distribution of positive fascioliasis cases	53
Table (6): Age distribution of positive fascioliasis cases by IHAT and stool examination in studied patients	55

## LIST OF TABLES (CONT.)

	<i>Page</i>
Table (7): Results of IHAT for fascioliasis and stool examination in the 3 groups under study, and the control group .....	57
Table (8): Incidence of fascioliasis cases in the different groups under study .....	58
Table (9): Incidence of eosinophilia in cases of fascioliasis .....	59
Table (10a): Clinical data of the 9 proved cases of fascioliasis .....	60
Table (10b): Laboratory data of the 9 proved cases of fascioliasis .....	61
Table (11): Correlation between age and <u>Fasciola</u> infection in the different groups under study .....	64
Table (12): Association between sex and positivity of fascioliasis in the different groups under study .....	65
Table (13): Correlation between ESR (mm/ h) and <u>Fasciola</u> infection in the different groups under study .....	66
Table (14): Correlation between IHAT and <u>Fasciola</u> infection in the different groups under study .....	67
