Acknowledgement

First and foremost, THANKS GOD, to whom I relate any success in achieving any work in my life.

I wish to express my deepest gratitude and appreciation to **Prof. Dr. Youssif Hamed Zaki,** Professor of Radiodiagnosis, Faculty of Medicine, Ain Shams University, it is a real pleasure to acknowledge his sincere encouragement.

I wish to express my deepest gratitude and appreciation to **Prof. Dr. Ahmed Abd El Tawab Mohamed,** Professor of Radiodiagnosis, Faculty of Medicine, Ain Shams University, it is a real pleasure to acknowledge his sincere encouragement. His intellectual and constructive opinions were essential to dress this work its final form.

I would also like to express my sincere thanks and deepest gratitude to **Dr. Azza Abd El Ghafar,** Lecturer of Radiodiagnosis, Faculty of Medicine, Ain Shams University, for her honest help, constant advice, keen interest and guidance throughout the performance of this work.

Lastly but not last, I owe to my lovely family for their encouragement, their great support, and all what they have done to me during my whole life.

INDEX

Contents	Page
• Introduction and Aim of Work	i
• Anatomy of the aorta	1
• Histology of the aorta	. 16
Pathology of the aortic aneurysms	. 18
• Clinical manifestations of aortic aneurysms	31
• Technical aspects of CTA	36
Normal CT appearances of the aorta and its main	
branches	57
• CT manifestations with illustrative cases	63
• Summary and Conclusion	104
• References	. 107
Arabic Summary	

LIST OT TABLES AND FIGURES

No.	Title	Page
	Tables	
1	Branches of the abdominal aorta	10
2	Types of aortic aneurysms.	21
3	Proposed technical factors for performing CT angiography of various vascular territories	45
4	Comparison of commonly used CT angiography post processing options.	50
	Figures	
1	The course of the aorta	1
2	A horizontal section through the thorax	3
3	Subtracted arch aortogram	5
4	The left aspect of the mediastinum	6
5	Subtracted coeliac trunk arteriogram	9
6	Subtracted superior mesenteric arteriogram	12
7	Subtracted inferior mesenteric arteriogram	14
. 8	Elastic artery: aorta	17
9	A) Intact fusiform atherosclerotic aneurysm	23
	B) Opened atherosclerotic aneurysm	
10	Saccular syphilitic aneurysm of the aortic arch	25
11	Acute dissecting aneurysm	27
12	Classification of dissection into types A & B	29
13	Scanning geometry in helical CT	38

No.	Title	Page
	Figures	
14	Interpolation rationale for helical CT	38
15	A, Determination of optimum scan delay time	43
	B, Time/density curve	
16	Helical prescription flow chart for CT angiography	47
17	A, MIP CT angiogram of the abdominal aorta	52
	B, SSD CT angiogram of the abdominal aorta	
18	A, SSD CT angiogram of the aorta and renal artery	53
i	B, MIP CT angiogram of the aorta	
	C, CPR CT aniogram of the aorta artery	54
19	A,B Normal chest CT axial images	57
20	A,B Normal chest CT axial images	58
21	A,B Normal chest CT axial images	59
22	A,B Normal Abdomen CT axial images	60
23	A,B Normal Abodmen CT axial images	61
24	A,B Normal Abodmen CT axial images	62
25	A,B Dynamic CT scan of an aneurysm of the aortic arch	64
26	Aneurysm with rupture into the mediastinum	65
27	A,B,C Posterior mediastinal malignant fibrous histiocytoma	67_
28	Aberrant right subclavian artery aneurysm	68

No.	Title	Page
	Figures	
29	Multiplanar reconstruction of an aortic arch aneurysm	70
30	A,B, Post operative infection	72
31	Type A aortic dissection in a cadaver	74
32	Type B aortic dissection.	76
33	Type B aortic dissection with time-density plot	77
34	Abdominal aortic aneurysm	80
35	Leaking abdominal aortic aneurysm	81
36	A,Abdominal aortic aneurysm	83
	B, bilateral iliac arteries aneurysms	
37	A, Anteroposterior screen film aortogram	85
	B, Left anterior oblique aortogram	
	C, SSD CT angiogram	
38	A, Helical CT scan of the renal arteries with 5-mm collimation	
	B, Helical CT scan of the renal arteries with 3-mm collimation	87
39	A, Frontal SSD of the entire aortoiliac system.	90
	B, , Lateral SSD of the entire aortoiliac system	
	C, Lateral SSD of the entire aertoiliac system	

No.	Title	Page
	Figures	
	D, Sagittal CPR of the entire aortoiliac system	90
	E, Coronal CPR of the entire aortoiliac system	91
	F, Correlative aortogram	91
	G, SSD for the left renal artery stenosis	91
	H, MIP for the left renal artery stenosis	92
	I, CPR for the left renal artery stenosis	92
40	CT angiogram of aortic dissection	93
41	A, SSD of aortic stent graft	95
	B, CPR of aortic stent-graft	95
42	Thoracoabdominal aortic aneurysm	99
43	Saccular mycotic aneurysm	100
44	Syphilitic ascending aortic aneurysm	100
45	A, Unenhanced atheroslcerotic aortic aneurysm	101
	B, Enhanced atherosclerotic aortic aneurysm	101
46	A, Anterioposterior Screen film aortogram	102
	B, Coronal CPR CT angiogram	
	C, Axial CPR CT angiogram	
	A, Axial sonogram within the true aortic lumen	

Introduction and Aim of the Work
