ACKNOWLEDGMENT

My deepest gratitude is to *prof. Dr. Mohamed Farid Abd Ellatif* professor of Dermatology and Andrology Ain Shams University for his meticulous supervision, sincere guidance, valuable advises and for elimination of the problems faced during carrying out this work.

My great thanks to *prof. Dr. Tarif Hamza Sallam* professor of clinical Pathology, Ain Shams University for the supervision of this work, sincere guidance in the laboratory studies of this work and for his fatherly support and advice .

My great thanks to *Dr. Mohamed Badawy Abd El Naser* lecturer of Dermatology and Andrology, Ain Shams University for his close supervision, valuable instructions and for his kind help throughout this work.

Acknowledgment should also be extended to *Prof. Dr. Mohsen El Bahrawy*, assistant professor of Dermatology and Andrology Ain Shams University for performing the operative part of this work.

My thanks to *Prof. Dr. Ali Khalifa* , professor of Biochemistry Ain Shams University for providing the laboratory needs of this work .

Finally, I would like to express my sincere thanks to all the staff members of the Dep. of Dermatology and Andrology, Ain Shams University for their kind help throughout this work.

Ahmed Fath Alla Shakara

* INTRODUCTION -----	1
* AIM OF THE STUDY -----	4
* REVIEW OF LITERATURE:	
1. <i>The human testis</i> -----	6
- The Sertoli cells -----	7
- The spermatogenic cells -----	8
- Spermiogenesis -----	12
- Structure of mature spermatozoon -----	13
- Leydig cells -----	15
2. <i>Aetiology of azoospermia</i> -----	18
- Functional azoospermia -----	18
- Obstructive azoospermia -----	19
3. <i>Evaluation of the azoospermic patient</i> -----	25
- History -----	25
- Physical examination -----	27
- Semen examination in azoospermic patient -----	27
- Epididymal markers -----	28
- Endocrinologic assessment of azoospermic patient -----	29
4. <i>Testicular biopsy in male infertility evaluation</i> -----	32
- Indications of testicular biopsy -----	32
- Complications of testicular biopsy -----	33
- Technique of testicular biopsy -----	33
- Histopathology of the testis in cases of azoospermia -----	36
- Testicular cytology -----	39
- Evaluation of histologic findings in testicular biopsy -----	41

Contents

5. Sperm motility and assisted reproduction	45
- Methods of assessment of sperm motility	46
- Sperm motility and forward progression	47
- Sperm motility and morphology	47
- Sperm motility patterns	47
6. Testicular sperm extraction and intracytoplasmic sperm injection	47
* PATIENTS AND METHODS	52
* RESULTS	56
* DISCUSSION	81
* SUMMARY AND CONCLUSION	90
* REFERENCES	92
