Acknowledgment

*Praise Be To Allah
Without the Help of Allah, This Work Would Not
Have Been Possible*

I would like to express my deep respect & my thanks to Prof. Dr. Abd Al Meguld Al Shinnawy, Professor of General Surgery, Ain Shams University, for his keen guidance & priceless advice. He always spares a lot of his time to teach us and I'm proud for being his student.

I would like to thank as well Dr. Ahmed Abd El Aziz, Assistant Professor of General Surgery, Ain Shams University, for his continuous advice and enthusiastic encouragement.

Also, I would like to thank Dr. Mounir Abo El Ela Lecturer of General Surgery, Ain Shams University, for his great help and continuous supervision.

I wish to offer my deepest thanks and gratitude to Dr. Waleed Abd AlGabar, Dr. Ashraf Abd Al Moghny and Dr. Ahmed Alaa El Deen Lecturers of General Surgery, Ain Shams University, for their kind co-operation and honest assistance.

My appreciation is extended to Dr. Khaled Kamal Ass. Lecturer of Radiology, Ain Shams University, for his help in the practical part of this work. His co-operation was invaluable.

Introduction

INTRODUCTION

occult anal sphincter injuries, in doing so how it may help to define the population at risk and decrease the incidence of iatrogenic faecal incontinence.
