

Skeletal and Renal Anomalies in Turner Syndrome

Thesis

Submitted in partial fulfillment for the requirement of
Master Degree in Pediatrics

By

Manal Ibrahim Moustafa
M.B. B.Ch.

Supervisors

Prof. Dr.

Mohamed Salah El-Din El-Kholy
Professor of Pediatrics
Faculty of Medicine
Ain Shams University

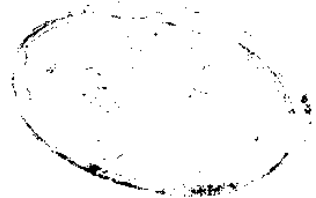

Prof. Dr.

Heba Mohamed Aly El-Deeb
Professor of Radio-Diagnosis
Faculty of Medicine
Ain Shams University

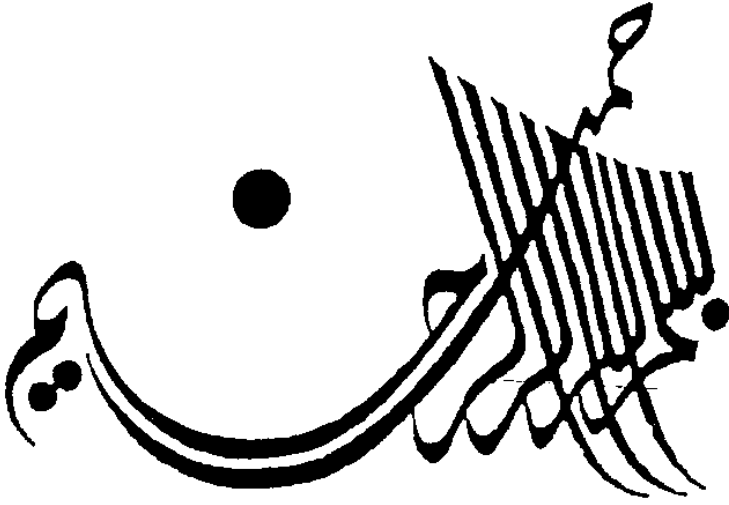

Dr.

Heba Hassan El-Sedfy
Lecturer of Pediatrics
Faculty of Medicine
Ain Shams University

Faculty of Medicine
Ain Shams University
1997

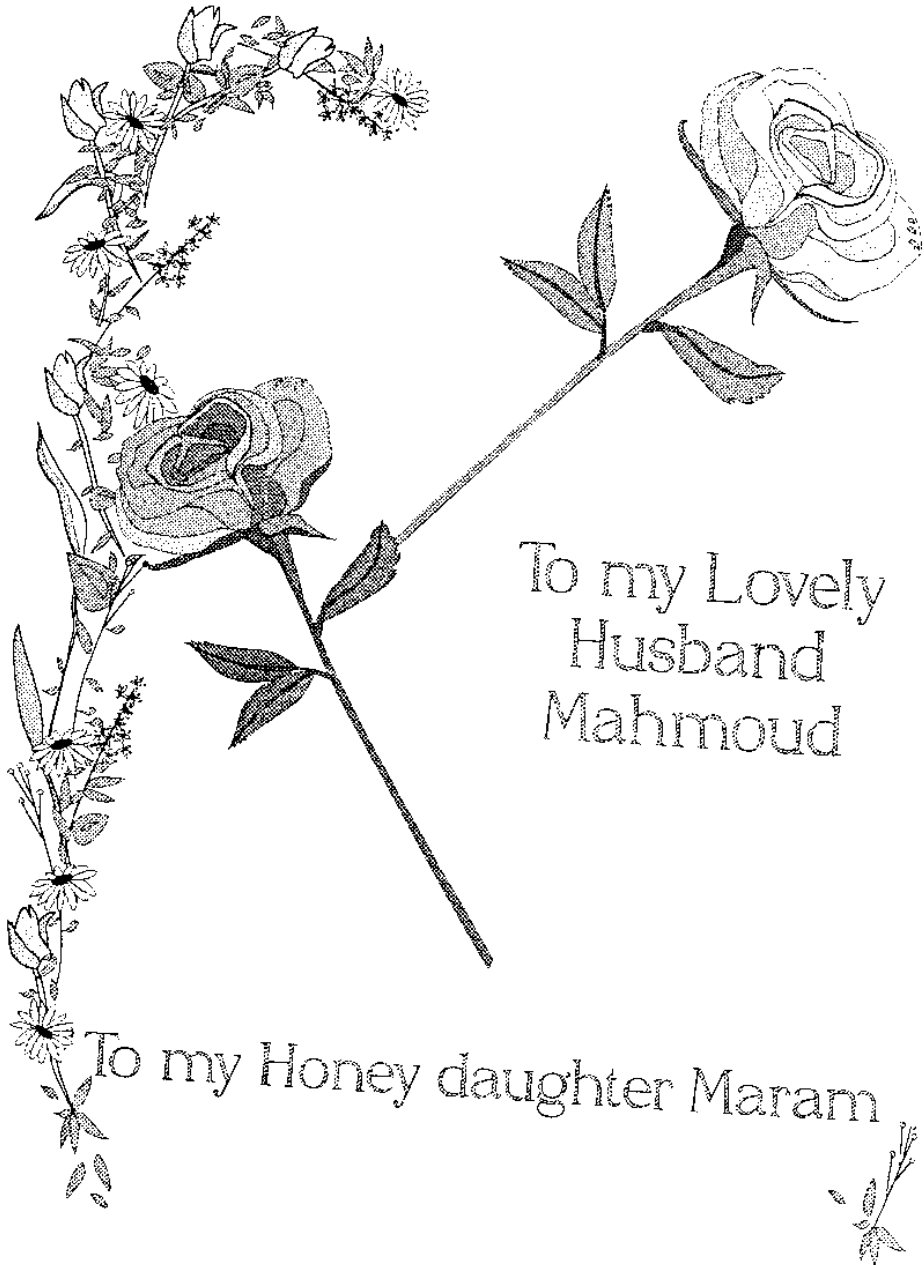

قَالُوا

سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا بِمَا غَشَّيْتَنَا
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صَدَقَ اللَّهُ الْعَلِيمُ

الآيَةُ (٢٢) سورة البقرة

Acknowledgement

First, and foremost, I feel always indebted to GOD, the most kind and the most merciful.

I would like to express my deepest gratitude and respect to Prof. Dr. Mohamed Salah El-Din El-Kholy, Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for his fatherly care, constructive criticism and continuous encouragement throughout the whole work. It was by his continuous guidance that this work has come to light.

Many thanks to Prof. Dr. Heba M. Aly El-Deeb, Professor of Radio-Diagnosis, Faculty of Medicine, Ain Shams University, for her great help and support throughout the whole work.

I want to express, also, my deep gratitude to Dr. Heba Hassan El-Sedfy, Lecturer of Pediatrics, Faculty of Medicine, Ain Shams University, for her great help during the supervision of this work.

Manal

ARABIC SUMMARY	

LIST OF TABLES

	<i>Page</i>
Table (I): Summary of cytogenic findings in 141 Turner syndrome patients	6
Table (II): Percentage of frequency of certain physical features in various karyotypic types of Turner syndrome	13
Table (III): Renal abnormalities detected in patients with Turner syndrome	17
Table (IV): Relationship of chromosomal karyotype to occurrence of renal abnormalities in patients with Turner syndrome	31
Table (V): Renal abnormalities detected in patients with Turner syndrome	41
Table (VI): Relationship of chromosomal karyotype to occurrence of renal abnormalities in patient with Turner syndrome	43
Table (VII): Differential diagnosis of Turner syndrome	56
Table (VIII): Radiological findings in both hands in ten Turner syndrome patients in relation to karyotype ...	67

LIST OF TABLES (CONT.)

	<i>Page</i>
Table (IX): Radiological findings in both feet in Turner syndrome patients in relation to karyotype	68
Table (X): Radiological findings in knee in ten Turner syndrome patients in relation to karyotype	69
Table (XI): Relationship of renal anomalies in ten Turner syndrome patients to their karyotypes	78
Table (XII): Statistical correlation between radiological foot abnormalities with renal anomalies in 10 girls	80
Table (XIII): Statistical correlation between radiological hand abnormalities and renal anomalies	81
Table (XIV): Statistical correlation between radiological knee abnormalities and renal anomalies	82
Table (XV): Statistical correlation between Somatic features and renal anomalies	83

LIST OF PLATES

	<i>Page</i>
Plate (I): X-ray A-P view of both hands	70
Plate (II): X-ray lateral view of knee joint	71
Plate (III): X-ray A-P view of the spine	72
Plate (IV): X-ray A-P view of the pelvis	73
Plate (V): Ultrasound image of duplex kidney	74
Plate (VI): I.V.P. of duplex kidney after 5 minutes	76
Plate (VII): I.V.P. of duplex kidney after 30 minutes	77
