

**DNA FLOWCYTOMETRY OF LEFT AND RIGHT
TESTES IN NORMOSPERMIC PATIENTS
AFFECTED BY VARICOCELE**

Thesis

Submitted for Partial Fulfillment of Master Degree
In Dermatology & Venereology

By

Nevien Atef El-Zoheiry

(M.B.B.Ch) – Ain Shams University (1992)

Under Supervision of

PROF. DR. DELBENT IBRAHIM MABROUK, M.D.

Professor of Dermatology & Venereology
Ain Shams University

DR. ASHRAF AFIFI HASSAN, M.D.

Lecturer of Dermatology & Venereology
Ain Shams University

DR. HOSSAM MOSTAFA FAHMI, M.D.

Lecturer of Clinical Pathology
Ain Shams University

Faculty of Medicine
Ain Shams University
1998

CONTENTS

Acknowledgement	
Introduction	
Review of Literature	1
Varicocele	1
Flowcytometry	23
DNA Staining of Cells	28
Interpretation of DNA Histogram	29
DNA Content Standards	31
Analysis of DNA Content	32
Flowcytometry & Varicocele.....	34
Material & Methods	35
Results	39
Discussion	51
Summary & Conclusion	58
References	62
Arabic Summary	

LIST OF FIGURES

Fig. 1:	Eschematic drawing of the classic internal spermatic vein anatomy.....	3a
Fig. 2:	Fluid transport system and flow chamber.....	25a
Fig. 3:	How long pass, short pass, and band filters and dichroic mirrors are used to see light of differing wavelengths.....	27a
Fig. 4a:	Signal processing The signal from each detector is amplified, converted to a digital value and directed to a digital computer for analysis display and storage.....	27b
Fig. 4b:	Schematic diagram of a flowcytometer showing the flow cell, excitation light beam, light collection optics, filters and photo-detectors.....	27c
Fig. 5:	An example of scrotal duplex ultrasonography show left 2 nd degree varicocele.....	35a
Fig. 6:	An example of flowcytometric study of a right varicocele patient.....	40a

LIST OF TABLES

Table 1	DNA ploidy in human cells.....	32
Table 2	Cellular parameters measurable by flowcytometry....	33
Table 3	Description data of seminal analysis of patient group.....	42
Table 4	Description data of the seminal analysis of the right group.....	42
Table 5	Description data of the seminal analysis of the left group.....	43
Table 6	Description data of the seminal analysis of the control group.....	43
Table 7	Seminal analysis study showing comparison between bilateral, left and right unilateral varicocele using Kruskal-Wallis method.....	44
Table 8	Seminal analysis study showing comparison between patients and controls.....	44
Table 9	Description data of flowcytometric analysis of patient group.....	45
Table 10	Description data of flowcytometric study of the right group.....	45

Table 11	Description data of flowcytometric study of the left group.....	46*
Table 12	Description data of flowcytometric study of bilateral group.....	47*
Table 13	Description data of the flowcytometric study of control group.....	48
Table 14	Flowcytometric study showing comparison between bilateral, left and right unilateral varicocele using Kruskal-Wallis method.....	49
Table 15	Flowcytometric study showing comparison between patients and controls group using Wilcoxon method.	50

ABBREVIATIONS

FCM	Flowcytometry
FNAB	Fine Needle Aspiration Biopsy
Hap H	Haploid High Condensed Cells
Hap L	Haploid Low Condensed Cells
Dip	Diploid Cells
Tetra	Tetraploid
Rt.	Right
Lt.	Light
Bilt.	Bilateral
Pt.	Patient

ACKNOWLEDGEMENTS

ACKNOWLEDGEMENT

I can not find proper words to express my deepest heart thanks to **PROF. DR. DELBENT IBRAHIM MABROUK, M.D.**, Prof. of Dermatology & Venereology, Ain Shams University, for her great efforts in suggesting and following-up my work. I am indebted to her for her enthusiasm.

I am indebted to **DR. ASHRAF AFIFI HASSAN**, Lecturer of Dermatology & Venereology Ain Shams University who helped me in countless ways. He read portions of the manuscript and invariably pointed me in the right direction, and gave me the support I needed.

I would like to thank **DR. HOSSAM MOSTAFA FAHMI, M.D.**, Lecturer of Clinical Pathology, Ain Shams University. I owe a special debt of gratitude to him for offering helpful advice, and for giving unstintingly of his time and energy.

Finally, I would like to thank **MR. MOHAMED I. ZIAD** for his matchless typing skills and cooperation in editing this thesis.
