ACKNOWLEDGEMENT

First and foremost, I thank Allah, who gave me the strength to accomplish this work.

I would like to express my sincere gratitude and appreciation to Prof. Dr. Fadila Hasan Sabry, Professor of Clinical and Chemical Pathology, Faculty of Medicine, Ain Shams University, for giving me the honor to work under her supervision, her generous supervision, keen interest and precious time she offered me throughout this study.

I wish also to express my deep gratitude to Prof. Dr. Afaf Abd El-Aziz Abd El-Ghaffar, Assistant Professor of Clinical and Chemical Pathology, Faculty of Medicine, Ain Shams University, for her continuous support, valuable remarks and for offering me much of her time and effort throughout this study.

My sincere thanks are to Dr. Inan Mohamed Amin Omar, Assistant Professor of Clinical and Chemical Pathology, Faculty of Medicine, Ain Shams University, for her meticulous supervision, valuable advices and continuous encouragement.
