ACKNOWLEDGMENT

I would like to express my deep thanks to Prof. Dr. Saad S.M.Hassan for his kind supervision, suggesting the problem and fruitful discussions during my experimental work in his laboratory.

I am deeply grateful to Prof.Dr. Mounir M.Ali for his supervision and reviewing the manuscript.

Thanks to Dr. Homan M. Serage for his supervision and suggesting the application parts.

I would like to express my deep gratitude and appreciation to Prof. Dr. Mohamed Y.Attawiya for all the facilities needed to fulfill this work and for his continuous encouragement .

Many thanks for Prof. Dr. Hamdy . S . El Naser, Chairman of the Nuclear Materials Authority for offering all facilities needed to complete this work. Special thanks and appreciation are extended to my mother & brother for their continuous encouragement and support during the progress of this work.

Deep gratitude and appreciation to my wife, my daughters Mayar,Mariem and my son Mohamed for their cordial sacrifices and encouragement.

Finally, thanks are extended to the library staff of the Nuclear Materials Authority and my friend Ahmed who offered me all possible facilities during this work.
