**BIOCHEMICAL STUDIES ON
TISSUE EXTRACTS OF FRESH WATER SNAILS
"SPECIFIC INTERMEDIATE HOSTS FOR
BILHARZIASIS"**

THESIS

SUBMITTED BY

MONA MOHAMMED ISMAIL MANTAWY

**For the Degree of
DOCTOR OF PHILOSOPHY
in Biochemistry**

**Faculty of Science
Ain Shams University**

SUPERVISED BY

**Prof. Dr. NADIA M. ABDALLAH
Professor and Head
Biochemistry Department**

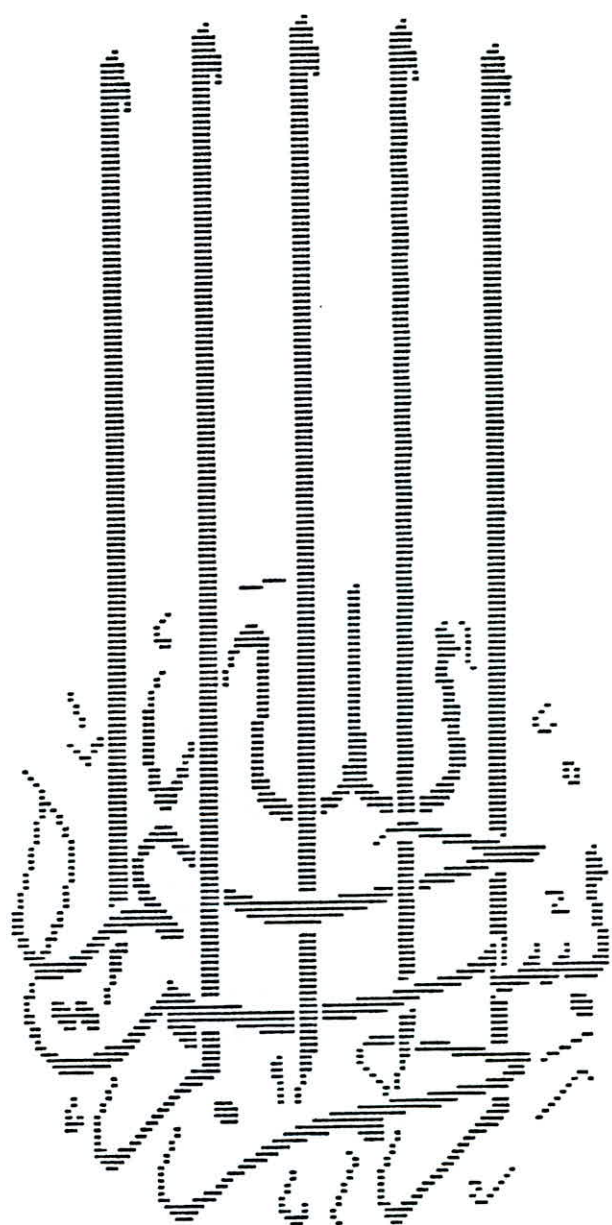

**Prof. Dr. I. M. NABIH
Professor, Medicinal Chemistry
Department, N. R. C.**

**Prof. Dr. SHADIA A. FATHY
Professor
Biochemistry Department**

**Dr. ABDEL-HAMID Z. ABDEL HAMID
Assist. Professor, Med. Chem.
Department, N. R. C.**

B V O V O

1995

**THIS THESIS HAS NOT BEEN SUBMITTED
FOR A DEGREE AT THIS OR ANY OTHER
UNIVERSITY.**

MONA MOHAMMED ISMAIL MANTAWY

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

It was a great honour for me to carry out this work under the supervision of **Prof. Dr. Nadia Mohammed Abdallah**, Head of the Biochemistry Department, Faculty of Science, Ain Shams University. I owe her a great debt of gratitude for her valuable advice, fruitful suggestions and great support.

I am also deeply grateful to **Prof. Dr. Ibrahim Mohammed Nabih**, Professor in the Medicinal Chemistry Department - National Research Centre, for his consistent supervision and his fatherly attitude.

I would like to express my deepest thanks to **Prof. Dr. Shadia A. Fathy**, Professor in the Biochemistry Department, Faculty of Science, Ain Shams University for her kind assistance, beneficial supervision and constructive criticism.

I am also grateful to **Dr. A. Z. Abdel Hamid**, Assistant Professor in the Medicinal Chemistry Dept., National Research Centre, for his great help, kind support and continuous encouragement.

I would also like to express my deepest gratitude to **Dr. Maha Z. Rizk**, Assistant Professor in the Medicinal Chemistry Dept., National Research Centre, for her generous help, kind assistance and encouragement throughout the work.

I also appreciate the efforts of **Dr. Ebtehal K. Farrag**, Assistant Professor in the Medicinal Chemistry Dept, National Research Centre, for her great help and continuous support and aid.

I am also grateful to **Dr. Ezzat Aboul Ela**, Lecturer in the Cytology and Genetics Department, National Research Centre for helping me in performing the chromosomal studies.

My deep thanks are due to **all my colleagues** in the National Research Centre for helping me to complete this work.

Lastly, I would like to thank the **National Research Centre** for providing the different facilities.

CONTENTS

	Page
INTRODUCTION	1
I Types of Schistosomiasis	1
II Life Cycle of the Parasite	2
III Intermediate Hosts for Schistosoma Worms	3
IV Host-parasite Relationship	4
V Control of Schistosomiasis	5
VI Biological Effect of Some Chemical Fertilizers	10
VII Biological Effect of DDVP	13
VIII Biochemical Composition of Snails	14
IX Reproduction of Snails	17
X Chromosomes of the Snails	19
 MATERIALS AND METHODS	 21
I Snails and Laboratory Conditions	21
II Effect of Different Chemical Compounds on the Mortality Rate of <i>Biomphalaria alexandrina</i> Snails	21
III Studies on the Effects of the Selected Chemical Compounds on <i>Biomphalaria alexandrina</i> Snail Macromolecules:	22
1. Treatment Solutions	22
2. Extraction of Intracellular Compounds of <i>B. alexandrina</i> Snails	23
IV Quantitative Determination of Fatty Acids	24
V Quantitative Estimation of DNA	25
VI Quantitative Estimation of RNA	26
VII Quantitative Estimation of Total Protein	27
VIII Biological Screening of the Selected Chemical Compounds on <i>B.</i> <i>alexandrina</i> Snails	29
IX Microscopic Examination of Snail Eggs	30

	Page
X Hatchability of Snail Eggs	30
XI Growth Rate of Newly Hatched Snails	30
XII Effect of Selected Chemical Compounds on the Susceptibility of B. alexandrina Snails to Infection	30
XIII Assessment of Chromosomal Aberration	32
STATISTICAL ANALYSIS	33
RESULTS	35
DISCUSSION	102
SUMMARY	115
REFERENCES	119
ARABIC SUMMARY	132

LIST of TABLES

	Page
Table (1): Mortality rate of <i>Biomphalaria alexandrina</i> snails treated with different concentrations of Urea	36
Table (2): Mortality rate of <i>B. alexandrina</i> snails treated with different concentrations of Ammonium Nitrate	38
Table (3): Mortality rate of <i>B. alexandrina</i> snails treated with different concentrations of Ammonium Sulphate	40
Table (4): Mortality Rate of <i>B. alexandrina</i> snails treated with different concentrations of Dichlorvos (DDVP)	42
Table (5): Effect of Urea, NH_4NO_3 , $(\text{NH}_4)_2\text{SO}_4$, NaH_2PO_4 and DDVP on DNA Content of <i>B. alexandrina</i> Snails	45
Table (6): Effect of Urea, NH_4NO_3 , $(\text{NH}_4)_2\text{SO}_4$, NaH_2PO_4 and DDVP on RNA Content of <i>B. alexandrina</i> Snails	47
Table (7): Effect of Urea, NH_4NO_3 , $(\text{NH}_4)_2\text{SO}_4$, NaH_2PO_4 and DDVP on Total Protein Content of <i>B. alexandrina</i> Snails	49
Table (8): Percentage of the different fatty acids of control and <i>B. alexandrina</i> Snails treated with Urea, NH_4NO_3 , $(\text{NH}_4)_2\text{SO}_4$, NaH_2PO_4 and dichlorvos (DDVP)	52
Table (9): Percentage of Total saturated and unsaturated fatty acids of Control and treated <i>B. alexandrina</i> Snails	64
Table (10): Effect of Urea, NH_4NO_3 , $(\text{NH}_4)_2\text{SO}_4$, NaH_2PO_4 and DDVP on the concentration of amino acids of Total Protein extracted from <i>B. alexandrina</i> Snails	67
Table (11): Percentage of Total essential and non-essential amino acids of control and treated <i>B. alexandrina</i> Snails	79
Table (12): Effect of Urea, NH_4NO_3 , $(\text{NH}_4)_2\text{SO}_4$, NaH_2PO_4 and DDVP on egg production by <i>B. alexandrina</i> Snails	82
Table (13): Susceptibility of <i>B. alexandrina</i> Snails to infection after treatment with Urea, NH_4NO_3 , $(\text{NH}_4)_2\text{SO}_4$, NaH_2PO_4 and DDVP	93
Table (14): Percentage of metaphase with chromosomal aberration in hermaphrodite gland cells of <i>B. alexandrina</i> Snails treated with DDVP and NaH_2PO_4	96
