STUDIES ON CNIDARIAN JELLYFISHES FROM SOME MARINE COASTS OF EGYPT

Thesis

*Submitted for the Partial Requirements
Of Master Degree of Science in Zoology*

Presented by

Aalaa Ibrahim Abd EL-Rahman Atlam

B.Sc. Zoology, Tanta University (2000)

Supervisors

Prof. Dr.

Mohamed Hassan Mona

Prof. of Invertebrates & Head of
Zoology Department,
Faculty of Science, Tanta University

Prof. Dr.

Fayez Abdel Maksoud Shoukr

Prof. of Invertebrates,
Zoology Department,
Faculty of Science, Tanta University

Prof. Dr.

El-Sayed Taha Rizk

Prof. of Invertebrates,
Zoology Department,
Faculty of Science, Tanta University

Prof. Dr.

Khadiga Morsy Sharshar

Asst. Prof. of Invertebrates,
Zoology Department,
Faculty of Science, Tanta University

**Zoology Department,
Faculty of Science,
Tanta University
2007**

CURRICULUM VITAE

Name:	Aalaa Ibrahim Abd El-Rahman Atlam
Date of Birth:	15/9/1979
Locality:	Saudia Arabia
Nationality:	Egyptian
Social status:	Single
Primary School:	El-Fateh, Tanta
Preparatory school:	Tanta Prep. School, Tanta
Secondary School:	Om El-Moumeneen, Tanta
Qualifications:	B.Sc. In Zoology, June, 2000, With a final degree "very good-Honers", Faculty of Science, Tanta University, Attended and passed successfully the post graduate courses in partial fulfillment of M.Sc., 2001.
Professional career	: Demonstrator of Invertebrates, Zoology Department, Tanta University.
Permanent Address	: Faculty of Science, Tanta University, Gharbia

Head of Zoology Department

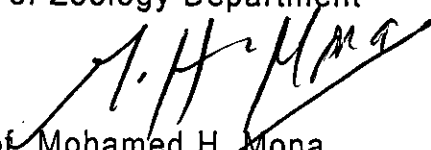

Prof. Dr. Mohamed H. Mona

M. SC. COURSES STUDIED BY THE CANDIDATE

Beside the work presented in this thesis, the candidate has attended and passed successfully the following postgraduate courses as a partial fulfillment of the requirements for the master degree of science during the academic year 2000-2001:

1. Evolution.
2. Embryology.
3. Comparative anatomy.
4. Biostatistics.
5. German language.
6. Computer course.

Head of Zoology Department

Prof. Mohamed H. Mona

To whom I Love

The sole of My Dear

Father and sister

And To my Dear Mother

Acknowledgement

First of all, I would like to thanks ALLAH for his Gifts and Grace.

I wish to express my sincere gratitude and sincere appreciation to my respected supervisors Prof. Dr. Mohamed Hassan Mona. Prof. of Invertebrates and Head of Zoology Department, Faculty of Science, Tanta University for his fatherly advice, endless support and for his constant encouragement throughout the study and also for the final reading and revision of the manuscript.

My thanks to Prof. Dr. Fayez A. El-M. Shoukri Prof. of Invertebrates, Zoology Department, Faculty of Science, Tanta University for suggesting the research point, and for his supervision.

Also, I thank Prof. Dr. El-Sayed T. Rizk Prof. of Invertebrates, Zoology Department, Faculty of Science, Tanta University, for sharing in suggesting the point, final reading and revision of the manuscript, and his valuable instruction and beneficial advice.

I would like to express my great appreciation and deepest gratitude to Prof. Dr. Khadiga Morsy Sharshar, Asot. Prof. of Invertebrates, Zoology Department , Faculty of Science, Tanta University, for her unlimited encouragement, effective patiently supervision, friendly guidance and constructive criticism during reading and revision of the manuscript.

Finally, I'm also thankful to the staff and all members of Zoology Department, Faculty of Science, Tanta University, for their help and encouragement.

List of tables

No.	Title	Page
Table (1)	Effect of different concentrations ($\mu\text{g/L}$) of large <i>Rhizostoma octopus</i> venom on the mortality rate of mice after one week of exposure.....	89
Table (2)	Effect of different concentrations ($\mu\text{g /L}$) of small <i>R. octopus</i> venom on the mortality rate of mice after one week of exposure.....	90
Table (3)	Effect of different concentrations ($\mu\text{g /L}$) of <i>Rhizostoma octopus</i> venom on the mortality rate of <i>Argentimia Platinum</i> after 24hr of exposure.....	91
Table (4)	Effect of different concentrations ($\mu\text{g /L}$) of <i>Cassiopea andromeda</i> and <i>Aurelia aurita</i> venoms on the mortality rate of <i>Argentimia Platinum</i> after 24hr of exposure.....	92
Table (5)	Measurements of nematocyst capsules.....	103

Table (6)	Bell diameter of <i>Rhizostoma octopus</i> during the periods of collection.....	105
Table (7)	Analysis of variance (one way ANOVA) for bell diameter of <i>Rhizostoma octopus</i> during the periods of collection.....	106
Table (8)	Weight of <i>Rhizostoma octopus</i> during the periods of collection.....	107
Table (9)	Analysis of variance (one way ANOVA) for weight of <i>Rhizostoma octopus</i> during the periods of collection.....	108
Table (10)	Biochemical composition of <i>Rhizostoma octopus</i>	110
Table (11)	Analysis of statolith element of <i>Rhizostoma octopus</i>	129
Table (12)	Distribution of the recorded scyphozoan species collected from Mediterranean and Red sea either locally or all over the world (quoted from various authors).....	132

List of figures

No.	Title	Page
Fig.(1)	Sites of collection.....	26
Fig.(2)	Mortality rate of large <i>Rhizostoma octopus</i> on mice after 4 days of exposure	89
Fig.(3)	Mortality rate of small <i>Rhizostoma octopus</i> on mice after 6 days of exposure	90
Fig.(4)	Mortality rate of large and small <i>Rhizostoma octopus</i> on <i>Argentimia Platinium</i> after 24hr of exposure	91
Fig.(5)	Mortality rate of <i>Cassiopea andromeda</i> and <i>Aurelia aurita</i> on <i>Argentimia Platinium</i> after 24hr of exposure period.....	92
Fig.(6)	Mean of bell diameter and weight of <i>Rhizostoma octopus</i>	109
Fig.(7)	Relationship between bell diameter and weight of <i>Rhizostoma octopus</i> ...	109
Fig.(8)	Energy dispersive X-ray spectra of statoliths of <i>Rhizostoma octopus</i>	129
