ACKNOWLEDGEMENT

**First and foremost, I feel always indebted to God, the most
beneficent and merciful**

The authoress would like to express her gratitude and deepest thanks to **Prof.Dr. Ibrahim Mohamed Abdallah**, Prof. of Horticulture, and **Prof.Dr. Fathy Abo-El-Nasr Abo-Sedera**, Prof. of Vegetable Production, Fac. of Agric., Moshtohor, Benha Branch, Zagazig Univ., for suggesting the problem, valuable supervision and guidance, encouragement throughout the work, pains-taking criticism, enlightening discussions and critical reading of the manuscript.

The authoress wish to express her heartfelt thanks to **Prof. Dr. Yehia Salim Khafagi**, Chief Researcher, Plant Pathology Research Institute, Agric. Res. Center, who kindly provided the every day-follow up to my practical work, his experience in the field work, unfailing help, valuable advice and encouragement, as well as the facilities he offered me, are highly appreciated.

Thanks are also due to the staff members of Horticulture Dept., Fac. of Agric., Moshtohor, Benha Branch, Zagazig Univ., whose co-operation has contributed much to the completion of this work.

The authoress takes this opportunity to thank all the staff members of the Post-Harvest Department, Agric. Res. Center, for facilities they offered during the preparation of this work.
