Evaluation of the Rigid Adjustable Pin (RAP) System in Maxillary Stabilization

Thesis

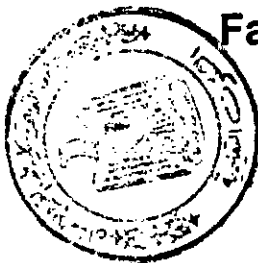

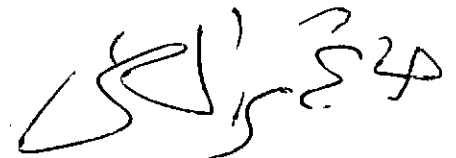

Submitted in partial fulfillment of the requirements for the
Master Degree in Oral and Maxillofacial Surgery

By

Waleed Ragab Radwan El-Beialy

B.D.S.

**Faculty of Oral and Dental Medicine
Cairo University**

2001

G.2.10

Supervisors

Dr. Hatem Abdel Rahman

Professor of Oral and Maxillofacial Surgery Department,
Faculty of Oral and Dental Medicine, Cairo University.

Dr. Mohamed Galal Behiery

Professor of Oral and Maxillofacial Surgery Department,
Faculty of Oral and Dental Medicine, Cairo University.

Acknowledgement

Acknowledgement

I would like to express my deepest gratitude and appreciation to **Dr. Hatem Abdel Rahman**, Professor of Oral and Maxillofacial Surgery Department, Faculty of Oral and Dental Medicine, Cairo University, for his kind effort, meticulous supervision and encouragement through out this thesis. It was an honor being under his supervision.

I deeply grateful to **Dr. Mohamed Galal Behiery**, Professor of Oral and Maxillofacial Surgery Department, Faculty of Oral and Dental Medicine, Cairo University, for his sincere guidance and supervision on this work, his simple way in teaching me how to write a thesis, for his explicit modesty and extreme generosity in all aspects.

Dr. Ragab Radwan El-Beialy, Professor of Oral and Maxillofacial Surgery Department, Faculty of Oral and Dental Medicine, Cairo University, I can never place my appreciation, gratitude, thanks, and admiration in words. I am deeply in dept to you. You generously taught me how to be a surgeon and how to always seek the best. I am especially thankful to the thousands of times you helped me in this work.

This work would never have been accomplished without the sincere help, guidance and assistance of **Dr. Ahmed AbdelMonem Barakat**, Assistant Professor of Oral and Maxillofacial Surgery Department, Faculty of Oral and Dental Medicine, Cairo University. My words can never express my appreciation, gratefulness and thanks to him for teaching me how to assess, prepare and perform a maxillofacial surgery. His patience, kindness and extreme generosity are far beyond my humble thanks.

My sincere thanks to **Dr. Wael Mobarak Refai**, Assistant Lecturer of Orthodontic Department, Faculty of Dentistry, Al-Menia University, for his kind and generous participation in this work, and exceptional efforts in accomplishing orthodontic treatment for all patients participating in this thesis.
