## ACKNOWLEDGEMENT

I would like to express my deepest thanks and gratitude to **Prof. Dr. Mohamed S. Gado**, Professor of Physiology, Faculty of Agriculture, Zagazig University, Benha branch, for his helpful consultation, kind guidance and useful advice throughout the life span of this work.

Sincere thanks are also due to **Prof. Dr. Samia M. El-Aggoury**, Professor of Poultry Production, Faculty of Agriculture, Zagazig University, Benha branch, for suggesting the problem, reading the manuscript and her close supervision, keen interest and providing guidance through the progress of the current study.

Especial thanks are due to **Prof. Dr. Mohamed A. El-Hossary**, Professor of Poultry Breeding, Animal Production Research Institute, Agricultural Research Center, for his supervision, excellent advises and continuous help during the progress of the research project.

I would like to express my sincere appreciations and thanks to **Dr. Hamdy M. Metwally**, Assistant Professor of Animal Nutrition, Faculty of Agriculture, Ain Shams University for his valuable help.

I wish to offer my deepest thanks to **Dr. Hosam H. Abbas** and **Dr. Tarek M. Abdel Khalek** for their assistance in the chemical analysis and cooperation during the experimental work.

Deepest thanks are due to my colleagues at the Animal Production Research Institute, Agricultural Research Center and all staff members of Animal Production Department, Faculty of Agriculture, Zagazig University, Benha branch for their valuable cooperation and kind help during the experimental work.

Eventually, I would also like to express my sincere thanks to my family and my wife for their patience, tolerate hard times and effective support during my study and preparing this manuscript.
