***Preparation of Two Series of materials with
Perovskite Structure and Investigation of their
Physical Properties***

Presented By

Hanan Saber refai Mohamed

*Assistant lecturer of Solid State Physics
Reactor Physics Department
Atomic Energy Authority*

*A Thesis Submitted
to
Faculty of Science*

In Fulfillment of the Requirements for
the Degree of
DOCTOR OF PHILOSOPHY

*Physics Departement
Faculty of Science
Cairo University*

2010

APPROVAL SHEET FOR SUMISSION

Thesis Title: *Preparation of Two Series of materials with Perovskite Structure and Investigation of their Physical Properties*

Name of the Candidate: Hanan Saber Refai Mohamed

This thesis has been approved for submission by the supervisors:

1- Prof. Dr. Mohga F. Mostafa

Professor of Solid State Physics, Faculty of Science, University of Cairo.

Signature: *M. F. Mostafa*

2- Prof. Dr. Samy S. Ata-Allah

Professor of Experimental Solid State Physics, Reactor Physics Department, Atomic Energy Authority.

Signature: *prof. Samy S. Ata Allah*

3- Dr. Ahmed A.A. Youssef

Associate Professor of Physics, Faculty of Science, University of Cairo.

Signature:

Prof. Dr. Gamal Abdel Nasser

G. M. Nasser
Chairman of Physics Department

Faculty of Science- Cairo University

The important thing in science
is not so much to obtain new
facts as to discover new ways of
thinking about them.

William Lawrence Bragg

To Spirits
of My lovely Parent and
Brother

ACKNOWLEDGMENT

I would like to thank my supervisors *Prof. M.F. Mostafa* Professor of Solid State Physics, Department of Physics, Faculty of Science-University of Cairo and *Prof. S.S. Ata-Allah* Professor of Experimental Solid State Physics, Head of Nuclear Solid State Group at the Reactor Physics Department, Atomic Energy Authority, for suggesting the point, their kind supervision, support, encouragement, and guidance which made this work possible.

I would like to thank Dr. *A.A.A. Youssef* Ass. Professor of Solid State Physics, Department of Physics, Faculty of Science-University of Cairo for his kind supervision during the course of this work.

Thanks are also extended to *Prof. Zein El-Abideen*, Faculty of Science, Ain – Shams University for his interest and help in the structure analysis.

In addition, I would like to express my gratitude and thanks to all staff and to my colleagues at the Reactor Physics Department (especially the Nuclear Solid State Group), for their constant encouragement.
