CLOSTRIDIUM DIFFICILE INFECTION IN ANTIBIOTIC INDUCED DIARRHEA

Thesis

Submitted for partial fulfillment of Master Degree
In Microbiology and Immunology

By

Hala Abdul-Mageed M. Tabl
M.B.B.Ch.

Under supervision of

PROF. DR. AHMED M. EL-GAZZAR

*Professor of Microbiology
and Immunology
Benha Faculty of Medicine*

DR. MAHMOUD A. SABOUR

*Assis. Professor of Microbiology
and Immunology
Benha Faculty of Medicine*

DR. SAWSAN A. RAHMAN YOUSSEF

*Assis. Professor of Microbiology
and Immunology
Benha Faculty of Medicine*

DR. FATMA M.A. EL-SALAM

*Assis. Professor of Hepatology
and Gastroenterology
Benha Faculty of Medicine*

وَعَلَّمَ مَا لَمْ يَكُنْ يَعْلَمُ
وَكَانَ فَضْلُ اللَّهِ عَلَيْهِمْ عَظِيمًا

صدق الله العظيم

LEST OF CONTENTS

Contents	Page
Introduction.	1
Aim of the work.	3
Review of literature	
Chapter I :	
<i>Clostridium difficile</i>	
• Historical review.	4
• Bacteriology.	6
- Morphology.	6
- Cultural characters.	6
- Biochemical reactions.	7
- Effect of physical and chemical agents.	9
- Animal pathogenicity.	9
- Typing of C.difficile.	9
• Toxins.	12
• Epidemiology.	21
Chapter II :	
<i>Antibiotic associated diarrhea.</i>	25
• Normal bacterial flora.	25
• Effect of antibiotics on intestinal flora.	26
<i>Nosocomial diarrhea</i>	28
<i>Clostridium difficile associated diseases :</i>	
• Risk factors.	30
• Pathogenesis.	33
• Clinical picture.	36

Contents	Page
• Complications.....	38
• Diagnosis.	39
• Treatment.	44
• Prevention and control.	49
Chapter III :	
<i>Cell (tissue) culture.</i>	51
• Definition.	51
• Cell culture systems.	51
• Growth media.	54
• Effect of C.difficile toxins on cell lines.	55
Subjects and methods.	57
Results.	68
Discussion.	87
Summary.	97
Conclusions.	100
Recommendations.	101
References.	102
Arabic summary.	
Appendix	

LIST OF TABLES

No.	Table	Page
Table (1)	The main characteristics and biological activities of toxin A and B of <i>C.difficile</i> .	18
Table (2)	Epidemiological data of the studied groups.	69
Table (3)	Clinical data of the hospitalized patients of group I and group II.	70
Table (4)	Antibiotic therapy given to the hospitalized patients of group I and group II.	71
Table (5)	Rate of isolation of <i>C.difficile</i> as detected by anaerobic culture among the studied groups.	72
Table (6)	Incidence rate of toxigenic <i>C.difficile</i> as detected by EIA and C.C.A among the studied groups.	73
Table (7)	Results of the three tests used for detection of <i>C.difficile</i> .	74
Table (8)	The incidence rate of toxigenic <i>C.difficile</i> in the hospitalized diarrheal patients (group I) according to epidemiological parameters.	76
Table (9)	The incidence rate of toxigenic <i>C.difficile</i> in the hospitalized diarrheal patients (group I) according to clinical manifestations.	77
Table (10)	Characteristics of diarrhea in +ve and -ve cases of the hospitalized diarrheal patients (group I).	78
Table (11)	The incidence rate of toxigenic <i>C.difficile</i> in the hospitalized diarrheal patients (group I) according to duration of hospital stay.	79

LIST OF FIGURES

No.	Figure	Page
Figure (1)	Gas chromatographs of volatile fatty acid metabolic products from 18hours AIMG cultures of a typical and an asaccharolytic strain of <i>C.difficile</i> on columns of SP 1220.	8
Figure (2)	A- The pathogenicity islet carrying the <i>tox A</i> and <i>tox B</i> genes. B- Structural features conserved between toxins A and B.	15 15
Figure (3)	Results of the three tests used for detection of <i>C.difficile</i> .	75
Figure (4)	The percentage of toxigenic <i>C.difficile</i> in hospitalized diarrheal patients (group I) according to the duration of hospital stay.	80
Figure (5)	The percentage of toxigenic <i>C.difficile</i> in hospitalized diarrheal patients (group I) according to the underlying diseases.	82
Figure (6)	The percentage of toxigenic <i>C.difficile</i> in hospitalized diarrheal patients (group I) according to the antibiotic therapy.	85

No.	Table	Page
Table (12)	The incidence rate of toxigenic <i>C.difficile</i> in the hospitalized diarrheal patients (group I) according to the underlying diseases.	81
Table (13)	The incidence rate of toxigenic <i>C.difficile</i> in the hospitalized diarrheal patients (group I) according to tube feeding.	83
Table (14)	The incidence rate of toxigenic <i>C.difficile</i> in the hospitalized diarrheal patients (group I) according to antibiotic therapy.	84
Table (15)	Data of total +ve cases according to different parameters.	86

LIST OF ABBREVIATIONS

AAD	: Antibiotic associated diarrhea.
ADP	: Adenosine diphosphate.
AIMG	: Anaerobic Identification media + glucose.
BP	: Base Pairs.
C.difficile	: Clostridium difficile.
C.terminus	: Carboxyl terminus.
CCA	: Cell culture assay.
CCFA	: Cycloserine cefoxitin fructose agar.
CDAD	: Clostridium difficile associated diarrhea.
CDTA	: Clostridium difficile toxin assay.
CFA	: Cycloserine fructose agar.
EIAs	: Enzyme immunoassays.
ELISA	: Enzyme linked immunosorbent assay.
FL	: Fecal leukocytes.
GC	: Gas chromatography.
GTP	: Guanosine triphosphate.
HIV	: Human immunodeficiency virus.
I.M	: Intramuscular
I.V	: Intravenous.
IL-1 β	: Interleukin – 1 β .
IL-6	: Interleukin – 6.
IL-8	: Interleukin – 8.
Kb	: Kilo-base
Kda	: Kilo-dalton.

Kg	: Kilogram.
L-toxin	: Lethal toxin
N.terminus	: Amino acid terminus.
P.U.O.	: Pyrexia of unknown origin.
PAGE	: Polyacrylamid gel electrophoresis.
PBS	: Phosphate buffered saline.
PCR	: Polymerase chain reaction.
PMC	: Pseudo-membraneous colitis.
RBCs	: Red blood corpuscles.
REA	: Restriction endonuclease analysis.
SD	: Standard deviation.
SDS	: Sodium dodecyl sulphate
Sqm	: Square meter.
TNF- α	: Tumour necrosis factor - α .
UDP	: Uridine diphosphate.
WBCs	: White blood cells.
WHO	: World health organization.

Introduction
