Assiut University
Faculty of Medicine

Clinical and Pathological Evaluation of the Long Term Steroid Therapy in Muscular Dystrophies

A Thesis Submitted in Partial Fulfillment For
The Master Degree in Neurology and Psychiatry
by

Ahmed Abdel-Baqy Abdel-Rahman

Resident of Neurology and Psychiatry
Assiut University Hospital

Supervised by:

Prof. Dr. Mahmoud Raafat A. Kandil

Professor of Neurology and Psychiatry
Faculty of Medicine
Assiut University

Dr. Mohammed G. Mostafa

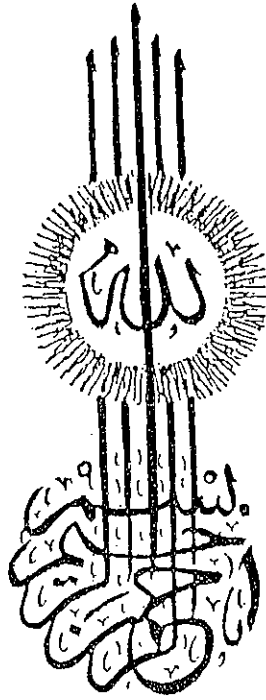

Assistant Professor of Pathology
Faculty of Medicine
Assiut University

Dr. Nageh F. Kamel

Lecturer of Neurology and Psychiatry
Faculty of Medicine
Assiut University

B 112

2004

« قالوا سبحانك لا علم لنا إلا ما علمتنا

إنك أنت العليم الحكيم »

صدق الله العظيم

Acknowledgments

First of all, I do thank **GOD** for all the gifts given to me.

I wish to express my deepest appreciation and profound gratitude to *Prof. Dr. Mahmoud Raafat A. Kandil*, Professor of Neurology and Psychiatry, Faculty of Medicine, Assiut University who initiated and assigned this work and for his kind support and continuous encouragement throughout the course of the study.

I would like to express my immense gratitude and appreciation to *Dr. Mohamed Galal Mostafa*, Assistant professor of Pathology, Faculty of Medicine, Assiut University for his assistance, kind advice and sincere guidance throughout the course of the study.

I would like to express my thanks and appreciation to *Dr. Nageh Fouli Kamel*, Lecturer of Neurology and Psychiatry, Faculty of Medicine, Assiut University, for his keen supervision, kind advice and constant encouragement throughout the work.

Many thanks to my patients and their relative for their helpful information and adequate cooperation during the study.

Finally, I would like to extend my great appreciation to my family for their continuous help and encouragement during performing this work.

Ahmed Abdel-Baqy Abdel-Rahman
Resident of Neurology & Psychiatry
Assiut University Hospital

| List of Abbreviations..... | iii |
| List of Tables..... | iv |
| Introduction and Aim of Work | 1 |
| Review of Literature | |
| Embryology of Skeletal Muscles..... | 3 |
| Normal Structure of Skeletal Muscle..... | 6 |
| Physiology of Muscle Contraction..... | 8 |
| The Muscular Dystrophies..... | 9 |
| Dystrophin..... | 19 |
| Diagnosis of Muscular Dystrophies..... | 24 |
| Prednisone in Muscular Dystrophies..... | 38 |
| Patients and Methods | 44 |
| Results | 48 |
| Discussion | 89 |
| Summary and Conclusion | 100 |
| References | 103 |
| Appendix | |
| Arabic Summary | |

List of Abbreviations

| | |
|-------------|-----------------------------------|
| BMD | : Becker Muscular Dystrophy. |
| CPK | : Creatine phosphokinase. |
| CT | : Computed tomography. |
| DMD | : Duchenne Muscular Dystrophy. |
| EMG | : Electromyography. |
| Kd | : Kilo-dalton. |
| LDH | : Lacatate dehydrogenase. |
| LGMD | : Limb-Girdle Muscular Dystrophy. |
| MRI | : Magnetic Resonance Imaging. |
| SD | : Standard deviation. |

List of Tables

| Table No. | Subject | Page |
|-----------|---|------|
| (1) | Age at onset of studied patients from different groups of muscular dystrophies..... | 49 |
| (2) | Age at presentation of studied patients from different groups of muscular dystrophies..... | 49 |
| (3) | Sex distribution of studied patients from all groups..... | 50 |
| (4) | Duration of illness of studied patients from different groups of muscular dystrophies..... | 50 |
| (5) | Number and percentage of myopathies in the relatives of studied patients from different groups..... | 51 |
| (6) | The frequency and muscle status of affected muscles in patients with DMD | 52 |
| (7) | Grades of motor power before and after treatment for patients with DMD | 53 |
| (8) | Mean \pm SD of grades of muscle power before and after treatment in patients with DMD | 54 |
| (9) | Mean \pm SD of timed function for motor assessment before and after 6 months treatment with prednisone in patients with DMD | 55 |
| (10) | Time in seconds for rising from sitting position in patients with DMD before and after treatment with prednisone..... | 56 |
| (11) | Time in seconds for going up 9 stairs in patients with DMD before and after treatment with prednisone..... | 56 |
| (12) | Time in seconds to travel 10 meters as rapid as possible in patients with DMD before and after treatment with prednisone..... | 57 |
| (13) | Correlation between improvement in timed function before and after treatment and duration of illness for patients with DMD | 58 |
| (14) | Mean \pm SD of overall disability of both upper and lower limbs before and after 6 months of prednisone treatment in patients with DMD | 59 |
| (15) | Stages of motor weakness in upper limbs in patients with DMD before and after treatment..... | 60 |

LIST OF TABLES

| Table No. | Subject | Page |
|-----------|---|------|
| (16) | Stages of motor weakness in lower limbs in patients with DMD before and after treatment..... | 60 |
| (17) | The frequency and muscle status of affected muscles in patients with BMD | 61 |
| (18) | Grades of motor power before and after treatment for patients with BMD | 62 |
| (19) | Mean \pm SD of grades of muscle power before and after treatment in patients with BMD | 63 |
| (20) | Mean \pm SD of timed function for motor assessment before and after 6 months treatment with prednisone in patients with BMD | 64 |
| (21) | Time in seconds for rising from the ground in patients with BMD before and after treatment with prednisone..... | 65 |
| (22) | Time in seconds for going up 9 stairs in patients with BMD before and after treatment with prednisone..... | 65 |
| (23) | Time in seconds to travel 10 meters as rapid as possible in patients with BMD before and after treatment with prednisone..... | 66 |
| (24) | Correlation between improvement in timed functions before and after treatment and duration of illness for patients with BMD | 67 |
| (25) | Stages of motor weakness in upper limbs in patients with BMD before and after treatment..... | 68 |
| (26) | Stages of motor weakness in lower limbs in patients with BMD before and after treatment..... | 68 |
| (28) | The frequency and muscle status of affected muscles in patients with LGMD | 69 |
| (29) | Grades of motor power before and after treatment for patients with LGMD | 70 |
| (30) | Mean \pm SD of grades of muscle power before and after treatment in patients with LGMD | 71 |
| (31) | Mean \pm SD of timed function for motor assessment before and after 6 months treatment with prednisone in patients with LGMD | 72 |
