**STUDIES ON RECENT
ISOLATES OF AVIAN
ENCEPHALOMYELITIS VIRUS
IN EGYPT**

A thesis presented

By

SAMAH HELMY MOHAMED

B. V. Sc., Cairo University (1992)

M.V. Sc., Cairo University, Beni-Suef Branch (1997)

For the degree of PH. D. V. Sc.

In Virology

Under Supervision of

Dr. / HANAFY MAHMOUD MADBOULY

Prof. and Head of Virology Dept.

Fac. Vet. Medicine, Beni-suef Branch

Cairo University

Dr. / AMINA A. M. NAWWAR

Prof. and Head of Immunity Dept.

Animal Health Research Institute,

Dokki, Cairo

2002

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

"وقل ربى زدنى علماً"

صدق الله العظيم

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part outlines the various methods and tools used to collect and analyze data. This includes the use of surveys, interviews, and focus groups to gather qualitative information, as well as the application of statistical techniques to quantitative data.

3. The third part of the document describes the process of identifying and measuring key performance indicators (KPIs). It highlights the need to select indicators that are relevant to the organization's strategic goals and to establish clear targets and benchmarks for these indicators.

4. The fourth part discusses the importance of regular monitoring and reporting of KPIs. It notes that this allows management to track progress, identify areas of concern, and make timely adjustments to the organization's strategy and operations.

5. The fifth part of the document addresses the challenges of data collection and analysis. It identifies common issues such as data quality, bias, and incomplete information, and offers strategies to mitigate these risks.

6. The sixth part of the document discusses the importance of data security and privacy. It emphasizes the need to implement robust security measures to protect sensitive information and to comply with relevant data protection regulations.

7. The seventh part of the document discusses the importance of data sharing and collaboration. It notes that sharing data across different departments and teams can help to improve decision-making and drive innovation.

8. The eighth part of the document discusses the importance of data visualization. It highlights the use of charts, graphs, and dashboards to present data in a clear and concise manner, making it easier for stakeholders to understand and act on the information.

9. The ninth part of the document discusses the importance of data-driven decision-making. It emphasizes the need to base decisions on objective data rather than subjective opinions or gut feelings.

10. The tenth part of the document discusses the importance of data literacy. It notes that all employees should have a basic understanding of data and be able to interpret and use it effectively.

APPROVAL SHEET

This is to certify that **Dr. SAMAH HELMY MOHAMED** has successfully passed the approval committee held in Fac. Vet. Med. Cairo University, Beni-suef branch for the degree of p.H. D.V.Sc. in virology.

Members of the approval committee are:

Signature

Dr. : **Mohamed Abd El-Hameed Shalaby**.....

Prof. and Head of Virology Dept.

Fac. Vet. Med. Cairo University.

Dr. : **Mahmoud Badawi El-Begawi**.....

Prof. and Head of Pathology Dept.

Fac. Vet. Med. Beni-suef Branch, Cairo University.

Dr. : **Hanafy Mahmoud Madbouly**.....

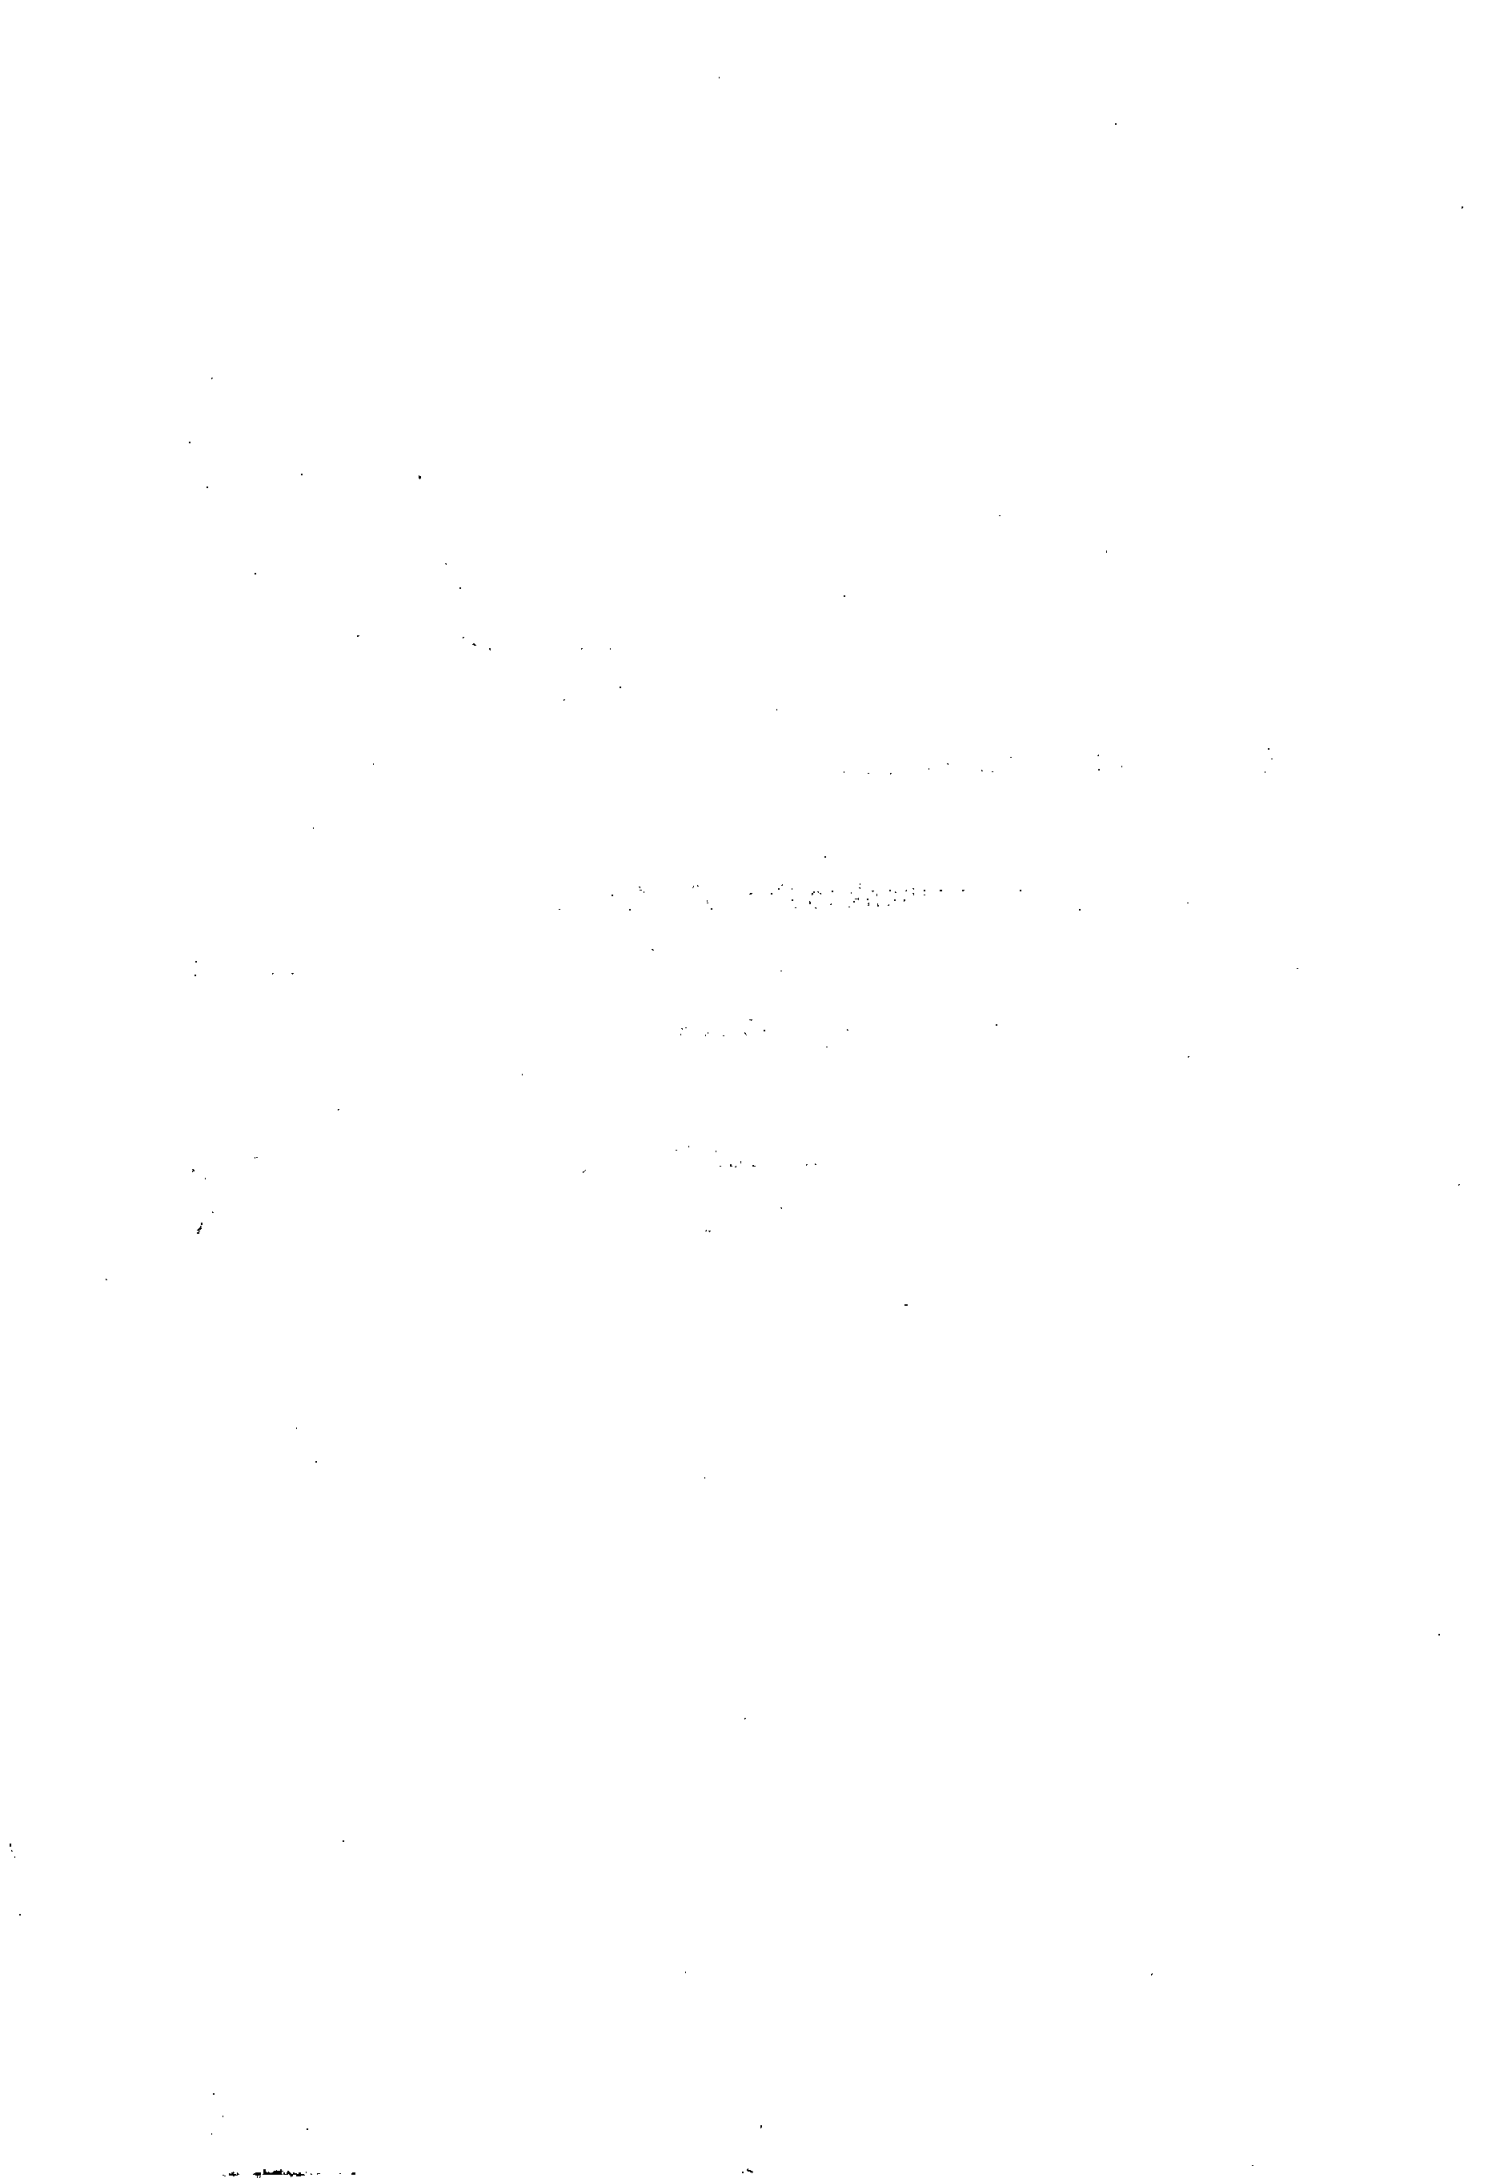

Prof. and Head of Virology Dept.

Fac. Vet. Med. Beni-suef Branch, Cairo University.

Dr. : **Amina Abd El-Moein Nawwar**.....

Prof. and Head of Immunity Dept.

Animal Health Research Institue, Dokki, Cairo.

ACKNOWLEDGEMENT

At the beginning, my full thanks to ALLAH. Who provided me every thing in my life .

I should be grateful to Prof. Dr. Hanafy Mahmoud Madbouly. Prof. and head of Virology, Dept., Fac. Of Vet. Med., Beni-Suef Branch, Cairo University, for his supervision, great help and excellent advice and direction to complete this study.

I also present my thank to Prof. Dr. Amina A. M. Nawwar, Head of Immunology Department, Animal Health Research Institute, for her supervision and her help to complete this study.

My acknowledgement also for Prof. Dr. Mahmoud El-Begawy. Prof. of Pathology, Fac. of Vet. Med. Beni-Suef Branch, Cairo University for his help.

At the end of my acknowledgement, I pray for ALLAH to make this research, a great benefit for all its readers and those who will use it in the future, hoping that ALLAH accept my humble work.

CONTENTS

	<i>Page</i>
1. INTRODUCTION	1
2. LITERATURE REVIEW	3
2.1. History and incidence	3
2.2. Phyco-chemical characters of the virus	8
2.2.1. Virus classification .	8
2.2.2. Virus structure	9
2.2.3. Physical and chemical effect	10
2.3. Biological characters of the virus	11
2.3.1 Virus strains	11
2.3.1.1. Egg adapted strains	11
2.3.1.2. Non. egg adapted strain (Field strain)	13
2.3.2. Virus haemagglutination.	16
2.4. Pathogenesis	16
2.4.1. Pathogenicity to ECE.	16
2.4.2. Pathogenicity to chicks	20
2.4.3. Pathogenicity to cell culture	24
2.5. Virus identification	28
2.5.1. Agar gel precipitation test (AGPT)	28
2.5.2. Serum neutralization test (SNT)	31
2.5.3. Enzyme linked immunosorbent assay (ELISA)	32
2.5.4. Fluorescent antibody technique (FAT)	37
2.5.5. Histopathological lesions	41
2.6. Vaccination	47
2.7. Molecular methods used for virus diagnosis	55

	<i>Page</i>
3. MATERIAL AND METHODS	
3.1. MATERIAL	56
3.1.1. Virus	56
3.1.2. Sera	56
3.1.3. Samples	57
3.1.4. Chicks	57
3.1.5. Rabbits	57
3.1.6. Embryonated chicken eggs (ECE)	57
3.1.7. Buffers and solutions	58
3.1.8. Media	60
3.1.9. Chemicals	61
3.1.10. Stains	61
3.2. METHODS	61
3.2.1. Virus isolation	61
3.2.1.1. preparation of samples for virus isolation	61
3.2.1.2. Isolation of virus in embryonated chicken eggs (ECE)	62
3.2.2. Detection of viral antigens by agar gel precipitation test (AGPT)	62
3.2.3. Virus titration on ECE	63
3.2.4. Virus purification	63
3.2.5. preparation of rabbit anti-AEV (Van Roekel strain) hyperimmune serum .	65
3.2.6. Demonstration of anti- AEV antibodies of the prepared hyperimmune serum in rabbit by ELISA	65
3.2.7. Identification of the isolated virus by serum neutralization test (SNT)	67
3.2.8 Pathogenicity test for one – day old chicks	67
