ACKNOWLEDGEMENT

First and foremost, I feel always indebted to Allah, the most kind and most merciful for all his blessings and for given me the will and the strength for completion of this work.

*I wish to express my deep appreciation and gratitude to Professor **Dr. Nawal Mahmoud Soliman**, Professor of Community Health Nursing Department, Faculty of Nursing, Ain Shams University, Words cannot describe how grateful I am for her meticulous supervision and generous help to complete this work. Also for her fruitful guidance, valuable support, constructive criticism, and continuous unlimited help. I would not have been able to start and reach perfection of this work without her.*

*I wish to express my sincere thanks and gratitude to **Dr. Hanaa Abd El Hakim** , Assistant Professor of Community Health Nursing, Faculty of Nursing, Ain Shams University, for her fruitful guidance, valuable support, constructive criticism, encouragement, patience, and helpful guidance to complete this work.*

*I wish to express my sincere thanks and gratitude to **Dr. Seham Guirguis Ragheb** Lecturer of Community Health Nursing, Faculty of Nursing, Ain Shams University, for the great support, encouragement, patience, constructive criticism, and helpful guidance to complete this work.*
